## Refuses To Leave Perilous Perch

—Acme Telephoto

LIMA, O.—Raymond Jutilla, 35, insane murderer from Warren, O., perched atop the 130-foot water tower of the State hospital for the criminal insane here Wednesday after he was trapped by guards in an escape attempt. Jutilla, described as "dangerous", defied efforts of officials to bring him down. "We'll just have to wait until he gets tired and hungry and comes down of his own accord," Dr. R. E. Bushong, hospital superintendent said.

## Fugitive Continues To Remain On Dizzy Perch

LIMA, O., July 14.—(INS)—A mentally diseased murderer classified as "dangerous" clung to his dizzy perch 130 feet up a water tower at the Lima state hospital today, after more than 24 hours without food, water or sleep. Rape-slayer Raymond Jutilla, 35, of Warren broke from his guards about 9 a. m. yesterday and dashed to the tower where he shouted down demands that state officials protect his family from released convicts. He claimed the convicts had threatened his family but failed to identify them.

During the night, Jutilla spoke quietly and reasonably to shifting crowds of curious before state hospital officials and Lima police blocked the road from the main highway to the hospital grounds. Dr. R. E. Bushong, hospital superintendent, said:

**Wait Till He Comes Down**  
"We won't go up after him. We'll just wait till he gets tired and hungry and comes down of his own accord."

## West Virginia Hit By Flash Floods

CHARLESTON, W. Va., July 14.—(INS)—One person was reported drowned, and at least 30 families were homeless today in flash floods that hit the rich agriculture area of Braxton, Webster and Nicholas counties in West Virginia.

State police at Sutton reported early today that the flood waters in that area were receding. The Elk river crested at 22 feet late yesterday afternoon, at Sutton, where the normal stage is about four feet, police said.

Relief operations at Sutton were being directed by Fire Chief Kent Duffield, who reported that al-

though no persons were reported missing in Sutton, property damage would run in the thousands of dollars.

### Damage To Crops

Damage, principally to crops, throughout the Elk valley, was estimated at nearly one million dollars.

The death was reported by Carl Morris, a miner, of near Erbacon, Webster county, who said his 13-year-old daughter was pulled from her grasp in the swirling flood waters of Laurel creek.

Morris said his daughter slipped (Continued on Page Two)

## STATE OKEYS TRAFFIC LIGHTS FOR MERCER

MERCER, July 14.—First traffic lights in the history of Mercer, will be erected in the near future for the protection of school children, it has been announced. Permission for the erection of the lights has been granted by the State Highway Department.

The lights will be erected at South Pitt and East Market streets and South Erie and West Market streets. The lights will be operated on a limited time schedule and only in connection with the protection of school children.

## Wolf Creek And Slippery Rock Being Checked

Action upon the pollution of the Slippery Rock creek is under way today.

In a telephone conversation today with Mr. Young of the Sanitary Water Board in Harrisburg, he said J. R. Harvey, district engineer of Meadville was checking Wolf creek at Grove City and also the Slippery Rock.

"We have information that a short time ago there was some difficulty at the sewage disposal plant in Grove City," said Mr. Young "and it is possible that some of the sewage escaped into Wolf creek. Mr. Harvey is instructed to go into the situation thoroughly and take whatever corrective measures are necessary."

In the meantime Dr. W. A. Womer, city health director, has taken samples of the Slippery Rock creek and said that the stream was no worse now than it had been for the past twenty-five years. In other words, the pollution apparently was not high enough to be alarming.

An effort will be made late today to get in touch with Mr. Harvey and see what report he has to make upon the matter.

## Mayors Appeal For Averting Of Steel Strike

McKEESPORT, Pa., July 14.—(INS)—The mayors of two cities which depend heavily on steel appealed today to President Truman and officials of the industry and the United Steelworkers to do everything possible to avert the threatened strike.

Mayor Frank Koprivier, Jr., of Duquesne, and Mayor Charles A. Kinkaid of McKeesport made the pleas, terming the strike "disastrous" and a "catastrophe".

Mayor David L. Lawrence of Pittsburgh said he contemplates no such action.

Mayor Kinkaid sent telegrams to President Truman, Benjamin Fairless, head of U. S. Steel, and Philip Murray, United Steelworkers chief, asking that they "exert every effort" to avert a strike which would close the McKeesport plants.

He said a steel strike would be "very disastrous" to the welfare of the city.

McKeesport has three U. S. Steel subsidiary plants, employing some 8,000 men. They are the National Works and the Christy Parks Works of the National Tube company and the W. Dewees Woods Works of Carnegie-Illinois.

Governor Duff Announces Oscar N. Lindahl Of Pittsburgh Is Named (BULLETIN)

HARRISBURG, July 14.—(INS)—Oscar N. Lindahl, a retired Big Steel official from Pittsburgh, was named executive director today of the General State Authority charged with a \$175,000,000 improvement program.

The GSA, acting on Gov. James H. Duff's recommendations, voted the 65-year-old retired vice president of the Carnegie-Illinois Steel Corporation an \$18,000 a year salary.

HARRISBURG, July 14.—(INS)—Oscar N. Lindahl of Pittsburgh today was selected by Gov. James H. Duff as the executive director of the \$175,000,000 General State Authority.

The 12-member authority is expected to confirm the appointment later today. Lindahl's salary is expected to be between \$15,000 and \$25,000 a year.

Lindahl retired June 30 after eight years as financial vice-president of the Carnegie-Illinois Steel Company. He also has been a distasteful (Continued on Page Two)

## Truman Makes Charge "Selfish Interests" To Blame For Recession

By ROBERT G. NIXON (N. S. Staff Correspondent)

WASHINGTON, July 14.—(INS)—President Truman today set the Democratic theme for the 1950 election with the charge that "selfish interests" are to blame for the current business recession.

The chief executive told a nationwide radio audience from the White House Wednesday: "We are not in a depression"—but—

"Many . . . people, for political reasons, would like to have a depression."

Mr. Truman accused his old political targets of last year's campaign—the so-called "selfish interests"—and the Republican-controlled 80th Congress—of upsetting the national economy.

## Settlement Of British Strike May Be Nearing

Government Doubles Number Of Troops Unloading Strike-Bound Ships

LONDON, July 14.—(INS)—The British labor government today doubled the number of troops unloading supplies from strike-bound ships in the port of London, amid indications that the crippling walk-out may be nearing a settlement.

Prime Minister Clement Attlee, who yesterday warned the strikers that they are seriously endangering Britain's shaky economy is expected to face bitter criticism today in commons over his handling of the labor disturbances.

An emergency meeting of stevedores and bargemen involved in the stoppage was scheduled for today. The strikers are expected to hear a report on behind-the-scenes talks between their leaders and the Canadian high commissioner in London.

The Canadian official reportedly told the union heads that Canadian seamen, whose labor dispute touched off the sympathy walkout by the Londoners, "misled" the British dockers.

### Began Two Months Ago

The strike began about two months ago when the London longshoremen refused to work two Canadian ships involved in a union dispute in Canada. The London Dock Labor Board then refused to let the dockers work other ships until the Canadian vessels were unloaded. Thus the dockers contended they were locked out, while the board termed the stoppage a strike.

A royal proclamation of a state of emergency not only failed to end the walkout, but resulted in a mushrooming of the strike, with a total of 13,264 dockers and 132 ships now idle.

The 2300 troops brought to the wharves to unload perishables were augmented today by 2200 additional soldiers, and accommodations for 10,000 more servicemen in London's air raid shelters were arranged, in case the strike continued.

It was understood that the Canadian commissioner told the strike leaders that when the Canadian seamen returned home, they would not be subject to victimization, as they reportedly informed the London dockers.

A stevedore leader was quoted as saying: "It looks as if we were misled."

## New York Bus Strike Spreads

NEW YORK, July 14.—(INS)—A strike at noon today paralyzed bus service on all 21 Manhattan lines of the New York City Omnibus Corp. serving 1,500,000 passengers a day.

The strike was caused by a dispute over discharge of four mechanics. It started earlier as a stoppage of six lines—three cross-town, and three north-south routes, affecting 230,000 passengers.

Councilman Michael J. Quill, president of the CIO Transport Workers' union, who personally ordered the second and greater strike, threatened:

"Unless the dispute is settled by midnight, then at 12:01 a. m. I will also tie up the Fifth Ave. Coach Corp."

## Predict Defeat For Atlantic Pact Rider

WASHINGTON, July 14.—(INS)—Senate supporters of the North Atlantic pact forecast today "certain death" for the Wherry rider denying any mandate on this country to arm western Europe.

Chairman Connally (D, Tex.) of the Senate Foreign Relations committee, declared: "We will beat it. All in the world it does is prolong debate."

Wherry said his rider "merely spells out that we are not morally or legally bound to supply arms."

"I am sure we are going to have an arms program for Europe. This does not rule out such a program. It just means that I as a senator am not bound to vote for the munitions shipments."

Sen. Dulles (R) N. Y., summed up objections generally voiced by opponents of the rider.

He said it would give the other pact signatories the impression "we are going into this with mental reservations and we have had a change of intentions". He said the rider was unnecessary because the pact carries no obligation on any senator.

The proposal touched off a hot argument on and off the Senate floor as to whether its adoption (Continued on Page Two)

## Payment Of City Tax High

Payment of the city property tax has continued to be very good this year, according to an announcement made today by Treasurer Bernard N. Hanlon.

Of the total duplicate tax statements totaling \$507,307.50 mailed out the first of the year, \$470,638.78 had been paid by July 1. This represents 93 percent of the total.

The unpaid balance of \$36,623.72 is subject to a five percent penalty.

Last year nearly 98 percent of the personal and property duplicate amounting to \$794,821.20 was collected. That part which was unpaid was divided almost equally between personal and property tax.

Treasurer Hanlon also announced today that the two percent discount rate applicable to the payment of school tax will be in effect until the close of business July 30. After that date, all school tax payments received will cost the payer the full amount of the duplicate.

## CIO Has Called For Strike Start On Saturday

Acceptance Of President's Plan For Truce Demand—ed To Avert Strike

## PLAN REJECTED BY BIGGEST COMPANIES

By PHILLIPS P. PECK (N. S. Staff Correspondent)

WASHINGTON, July 14.—Peace in the steel industry hangs today on the replies of the "big three" producers to a second appeal from President Truman for submission of their wage dispute to impartial public study.

The CIO Steelworkers Union has called a strike for Saturday against all companies which do not accept the president's plan for a 60-day truce while a special fact-finding board probes the controversy.

CIO President Philip Murray announced union acceptance of the White House peace plan, but the three biggest steel companies—U. S. Steel, Republic and Bethlehem—turned it down.

### Second Request

Last night Mr. Truman telegraphed a second urgent request to the "big three" to reconsider their action in the interest of preventing a strike that could imperil the national safety. He said:

"Surely you are not afraid to have your side of this dispute examined in the public interest. I trust that you will cooperate in presenting the full facts to the board I am appointing."

The White House awaited the trio's reply today before taking further action.

Four other major producers—Jones and Laughlin, Youngstown Sheet and Tube, Wheeling and Inland Steel—have accepted Mr. Truman's plan and more than 50 smaller companies have been asked to do likewise in order to avoid a shutdown of their plants.

### Strike Set For Saturday

However, without the acceptance of the "big three" a serious steel strike will begin Saturday. U. S. Steel, Republic and Bethlehem employ 375,000 of the union's one million members and produce a large part of the nation's steel.

Murray said any of these three firms could avert a walkout by changing their stand and agreeing to submit arguments to the fact-finding board.

The panel will hear the union's demands for a fourth wage increase and company-financed pension and insurance programs, the industry's opposition and then make "fair and equitable" recommendations for a settlement.

### Prepare For Strike

PITTSBURGH, July 14.—The CIO-United Steelworkers today put their strike machinery into motion to be ready to halt production this week end of any of the companies which do not agree to submit wage arguments to the president's fact-finding board.

The union, the steel industry and the nation expected clarification today of what companies would be shut down.

So far, the "big three"—United States Steel, Bethlehem and Republic, employing about 300,000 men—have rejected Mr. Truman's peace plan.

The president has issued a second plea asking them to reconsider his proposal. Their answers may be received today.

No. e of the three has made any (Continued on Page Two)

When the mercury does a rope trick climb, and the city byways are hot, when the heat impedes in your meals and sleep, I know of a lovely spot, where the sun is barred from the face of a stream, by bowing low from the trees, and a mossy bank is an ideal place to sit and enjoy a breeze. # Extra Guards Over Prisoner

## Suspect In Abington Jail Reportedly Attempted Suicide In Cell

ABINGTON, Pa., July 14—(INS)—Extra guards were assigned today to watch Ollie M. Carey, suspected slayer of an Abington policeman, after he reportedly attempted suicide last night in his cell.

Police Chief Patrick McKee said Carey slashed his wrists a total of 11 times. He was rushed to Abington hospital, where physicians closed his wounds with six stitches, and then returned to his cell.

Carey had been returned to Abington yesterday afternoon from Virginia, where he was captured last week. He is suspected of shooting policeman Thomas J. Matthews.

Police said they had been checking Carey's cell every ten minutes. He was found lying on a cot, with his wrists slashed, a short time after he had asked guards for a pencil and paper.

McKee would not reveal what Carey had written. He said the prisoner told him the penknife had been strapped to his thigh since before he left Virginia.

# Two-Year-Old Girl Accidentally Shot By Older Brother

YORK, Pa., July 14—(INS)—Mary Elizabeth Vickers, two, died today at York Hospital from a .22-caliber rifle gun-shot wound reportedly inflicted by her 11-year-old brother John Henry while shooting at a target at their home near Fawn Grove.

Coroner Lester J. Sell said the boy first denied the shooting but later admitted he fired the shot which he said was accidental.

John Henry said he was shooting at a target in the back yard when Mary Elizabeth walked into the line of fire as he squeezed the trigger, Sell said.

The boy was held for the juvenile court. The coroner and state police indicated they believed the shooting was accidental.

would mean the treaty would have to be renegotiated.

Vice President Barkley said the State department would have to submit the rider to other signatories for an expression of opinion.

Connally sharply disputed Wherry's contention that renegotiation of the treaty would not be required.

Wherry said his "declaration of intent" did not affect the meaning of the treaty. Connally retorted:

**Says It Is Meaningless**

"If it doesn't affect the treaty, if it is meaningless, what's the sense of offering it?"

Sen. Lodge (R) Mass., termed the debate "legislative, logic-chopping obfuscation." He said:

"There is too much law school here. All there is in the pact is a common sense obligation to aid European defense."

Senate parliamentarian Charles L. Watkins explained that the rider if adopted would have to be submitted to other signatories. He said the heads of the various governments might be able to express an opinion but if they thought the proposal affected the treaty's objectives, a formal gathering of the 12 signatories might be required.

Senate majority leader Lucas (D) Ill., declared the rider would be rejected. Sen. Baldwin (R) Conn., said it would muster no more than 15 votes.

# MAN FOUND HANGED

MIDDLETOWN, Pa., July 14—(INS)—The body of Joseph H. Brennan, 40-year-old Olmsted air force base employee, was found today hanging from a curtain rod in a closet of his second floor apartment at Pineford acres.

Deputy Coroner William L. Schaefer issued a verdict of suicide. His wife discovered the body. No motive was uncovered. His wife and work supervisor reported Brennan seemed to have been "in normal spirits."

**FATAL FALL FROM TRACTOR**

MONTICELLO, Pa., July 14—(INS)—Charles O. Davis, 79, died yesterday on his Susquehanna county farm of injuries sustained when thrown from a tractor in Gibson township.

Coroner K. A. Bush said the aged man had purchased the tractor only a week ago and was not familiar with its operation.

last night that he was cold and tired, but when guards stationed at the bottom of the tower asked if he were hungry, he just grinned and displayed two candy bars.

Three searchlights were trained on the man who came to within 30 feet of the ground four times during the night, but each time scampered back up his spidery ladder.

Once he shouted:

"I'll stay up here two weeks if I have to."

Several times during the night Jutilla clambered to the top of the tower and lay down on a narrow cat-walk for rest, but it was only for a few minutes and he soon returned to his perch on a cross-bar.

He told the crowd he had no intention of escaping from the hospital and that he headed directly for the tower when he broke away, as a means of securing state protection for his family.

Jutilla was found guilty of first degree murder Dec. 24, 1935, in the rape-slaving of Mrs. Marie Tobin, 25. The jury recommended mercy. He has been in and out of the state hospital three times, spending the intervening stretches in the Ohio penitentiary.

The President then claimed "important economic reforms" of his and the Roosevelt administrations have prevented a more serious economic collapse.

Mr. Truman's 30-minute talk to the nation was billed by the White House in advance as an explanation of his mid-year economic message "in simple language the people can understand."

He gave a sober and reassuring picture of the American economy. But its political overtones and implications in next year's important by-election were in almost every paragraph. He repeatedly blasted "men of little vision," "selfish interests" and the 80th Congress.

**Some Cheerful Notes**

There were some cheerful notes in Mr. Truman's report. He asserted that a 300 billion annual economy can be attained and appealed to every segment of the nation to "take positive action together to restore the upward trend."

Mr. Truman boasted that the national income had increased in 10 years from 100 billion dollars to 225 billion last year. He said "if we could make such progress in the past, we can go on making it in the future."

Mr. Truman had attained a budget surplus before the 80th Congress slashed taxes and asserted confidently:

"And I intend to achieve one again."

He asked the nation to back the 11-point anti-recession program he submitted to Congress Monday in his mid-year report, and made these new suggestions:

**Suggestions Made**

1. For business to modernize its plants and make new investments.
2. For management and labor to cooperate in achieving higher production, and employment.
3. For farm production to continue at high level.
4. For government to expand development of natural resources through a broader program of soil conservation, river valley development, and other public works.

The President's economic theme was:

"We cannot stand still. We must expand if we are to remain prosperous."

**Defends Policy**

Mr. Truman vigorously defended his new policy of deficit spending.

He said:

"At a time when more investment is needed, it would be foolish to cut down productive government investment in national resources and public works."

"The people who unwisely urge that government expenditures be slashed are for the most part the very same people who have long been opposing our social programs and our resource development programs."

"During an inflationary period, they are against these programs because they say they are inflationary. During a deflationary period they are against them because they say they are deflationary."

"Rain or shine, they are just against them."

He contended that more than three-quarters of the present 42 billion dollar budget is taken up with paying "for past wars or our efforts to prevent another war."

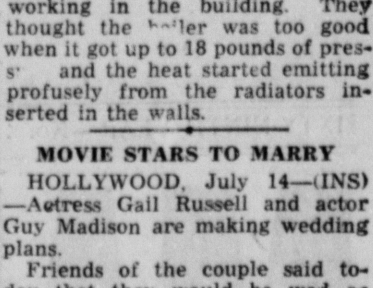

# Boiler Test Made At New City Hall

To William Piffant, senior janitor of the city building went the honor of lighting the boiler in the new city hall—the first time.

Wednesday, city officials and representatives of the stoker manufacturer met at the new home of the city to test the stoker and boiler installations.

Mr. Piffant's honor was a dubious one as he also had to prepare the kindling and shovel several hundred pounds of coal before the boiler was fired.

The test was a success for all but the plasterers and other tradesmen working in the building. They thought the boiler was too good when it got up to 18 pounds of pressure and the heat started emitting profusely from the radiators inserted in the walls.

**MOVIE STARS TO MARRY**

HOLLYWOOD, July 14—(INS)—Actress Gail Russell and actor Guy Madison are making wedding plans.

Friends of the couple said today that they would be wed as soon as Madison, a bobby sox favorite, returns to the film capital. The two have been in the hand-holding stage for the past two years.

## MILDRED WINK FETED AT SURPRISE SHOWER

Miss Mildred Wink, daughter of Mr. and Mrs. Robert Wink of W. Washington street extension was pleasantly surprised at her home Tuesday evening when her sister, Mrs. George Wisner of Saginaw, Mich., entertained at a pre-nuptial shower in her honor.

Various games were enjoyed throughout the evening and the guests filled a scrap book of wedding memories for the bride-elect. Prizes for the games were captured by Mrs. Richard Kalajainen, Mrs. Harvey McCormick, Mrs. Harris Smith, Mrs. Olive George and Mrs. Ed Beck.

At a late hour, a delicious lunch was served by the hostess assisted by Mrs. Tom Wilcox, Mrs. Olive George, and Mrs. Robert Wink. The table was beautifully decorated in pink and white, with a floral centerpiece of sweet peas flanked by pink tapers. Miniature pink and white baskets revealed the news "Mildred and Ralph, July 16."

The honoree received a shower of gifts of a miscellaneous nature. Guests of the evening included Miss Wink's Sunday school class.

The bride-elect will marry Ralph Bott, son of the late Mr. and Mrs. Oscar Bott of Continental, O., at an open church wedding to be held July 16 at 7:30 p. m., in the Maitland Memorial Primitive Methodist church with the Rev. H. O. Fichter, pastor of the church, officiating.

The descendants of Thomas and Margaret Taylor will hold their reunion Saturday, July 30, at the home of I. G. Taylor, Princeton.

## VERLOTTE DORAN HILLSVILLE WEDDING

Palms and ferns graced the candlelit altar of St. Lawrence church in Hillsville on Saturday morning, July 9, at a 9 o'clock nuptial mass, when Miss Connie Verlotte, daughter of Mr. and Mrs. John Verlotte of Hillsville, became the bride of Robert J. Doran, son of Mr. and Mrs. Edward F. Doran of 942 Marshall avenue, this city.

The Rev. Joseph Fabbri officiated at the exchange of vows, using the single ring ceremony.

The bride, given in marriage by her father was attired in a lovely gown of white summer satin fashioned with a nylon marquisette yoke trimmed in Chantilly lace. The same delicate lace formed a scalloped effect at the hemline of the bouffant skirt which ended in a Cathedral train. Her fingertip veil fell from a beaded crown and she wore the traditional something old, something new, something borrowed and something blue and carried a colonial bouquet of Johanna Hill roses trimmed with tulle and knotted ribbons. Her only jewelry was a gold cross.

Miss Rosemary Pepe, as maid of honor, wore a becoming gown of orchid marquisette and lace styled similarly to the bride's. She carried a floral spray of roses. Bridesmaids, the Misses Mary Doran, Dorothy Doran, Clara Polaris and Gloria Fazzular, the latter two of Hillsville, were attired in pastel shades complemented by large picture hats. They carried harmonizing bouquets of roses frilled with tulle.

David P. Doran, brother of the groom, served as best man and the ushers were Bill Doran, Bill McPeak, James Reed and John Pezula.

The girls choir of St. Lawrence church sang "Ave Maria" and other appropriate solemn music.

Following a congratulatory period held in the church vestibule a wedding breakfast was served at the bride's parents' home for the bridal party and immediate families. The wedding dinner was served at a local dining room. The evening reception was held at St. Lucy's hall for 400 guests.

The couple left for a wedding trip to Washington, D. C., and other points of interest.

Mr. Doran is employed by the National Radiator company in New Castle.

Mr. and Mrs. Doran will reside with the bride's parents in Hillsville.

# Soft Drinks Tax Payments Show Increase

HARRISBURG, July 14.—(INS)—Pennsylvania's bitterly contested soft drinks tax is showing increased yields today over those of a year ago.

A report by the State Revenue Department on "pop" tax revenues for the first six months of 1949 showed receipts were approximately \$150,000 ahead of the comparable period of 1948.

Receipts for the period January through June of 1949 totaled \$6,199,233, compared with \$6,049,824 last year.

"The soft drink tax definitely is on the increase this year," said W. H. Beachy, chief of investigations and collections. "Collections already are well ahead of this time last year."

The penny a bottle levy, renewed by the 1949 General Assembly in a sharp fight marked by charges of a "deal" with Allegheny County Democrats, is expected to yield \$27,000,000 to the state during the next two years.

**Estimate \$27,000,000 Yield**

During the 1947-49 biennium, the levy produced \$26,897,000, just under the state's estimated return. Despite the removal of simple syrup (sugar water) and cordials from the taxable list by the recent legislature, the two-year tax estimate was continued at \$27,000,000 in view of rising tax receipts.

The bottling industry is awaiting a decision by the Dauphin county court on the constitutionality of the two-year-old levy.

Nine soft drink bottlers have carried their fight to the court on the grounds that the tax is unlawful in that it violates a constitutional requirement for uniform taxation on a single class of subjects. Although arguments on the suits were completed early this year, no decision is in sight.

A number of bottling firms and syrup manufacturers have "held out" on payment of the tax pending the outcome of the case, Beachy said. Although Beachy was unable to fix the amount involved in "hold-outs," he indicated it ran into thousands of dollars.

Meanwhile, a new regulation will go into effect September 1 requiring all soft drinks to carry crowns bearing a tax-paid insignia or stamp, Beachy said. Bottlers generally prefer to use crowns in place of stamps on bottled goods.

The new tax crown will be produced by licensed manufacturers and will be issued to bottlers upon certification of the Revenue Department that the tax has been paid.

## PREVENT FOREST FIRES.

IT TAKES HUNDREDS OF YEARS FOR NATURE TO MANUFACTURE ONE INCH OF HUMUS THAT IS FOUND IN THE WOODS. THEN ONE FOREST FIRE CAN DESTROY IT IN A FEW HOURS. WHEN THE ASHES FROM FOREST FIRES FIND THEIR WAY INTO STREAMS THEY KILL FISH LIFE. BE SURE THAT THE CIGARETTE, PIPE ASHES OR CIGAR BUTT ARE OUT, BEFORE THROWING THEM AWAY, IF YOU SMOKE IN THE WOODS.

## Murder Indictment Will Be Sought In Slaying By Youth

CHICAGO, July 14.—(INS)—The Cook county (Chicago) state's attorney's office will seek a murder indictment today against 15-year-old Robert Munday who admitted killing a playmate on a homemade gallows.

The decision to present evidence to a grand jury today was announced by first assistant state's attorney Edward T. Breen.

Munday, president of a neighborhood "Hangmen Noose Club," is being held in the July 6 death of Tommy (Whitey) Laux. The youth told police he looped a noose around Tommy's neck and knocked him off a couch because the young boy had bothered a pet cat.

**HOPE FOR HOT WEATHER**  
CHICAGO, July 14.—(INS)—Wholesale watermelon merchants are hoping for another scorching heat wave in the middle west.

Recent cool weather around Chicago has caused demand for their fruits to slack off, and there are 347 carloads of wilting watermelons in Chicago's freight yards.

Two carloads were sold yesterday for freight charges alone.

## Present Bill To Increase Taxes

WASHINGTON, July 14.—(INS)—Rep. Forand (D) R. I., on Wednesday introduced legislation to increase income taxes in the upper brackets, boost estate and gift levies, and repeal wartime excise rates.

In addition, the bill would provide increased incentive to venture capital by guaranteeing that initial losses would be taken into account against future profits.

A five-year carry-over period for business losses would be provided in place in the present two-year period, while the two-year carry-back of losses would be reduced to one year.

Forand, a member of the tax-writing ways and means committee, said his bill generally follows the recommendations of President Truman in his mid-year economic report.

**TO RECEIVE BIDS**  
HARRISBURG, July 14.—(INS)—The general state authority will meet shortly before noon today in the governor's office to receive bids on \$30,000,000 worth of bonds from private investors' syndicates.

Money derived from the sale will be used to underwrite the initial projects in the agency's \$175,000,000 construction and improvement program.

Gov. James H. Duff also may disclose his appointment of an executive director to head the GSA. The post will pay \$15,000 a year.

The 30-year-bonds offered by the GSA have the faith and confidence of the commonwealth and will be retired insofar as possible from revenues on self-liquidating projects.

# Years of research pioneering guarantee LUCKIES ARE A FINER CIGARETTE!

Constant research at Lucky Strike's famous cigarette laboratory—America's largest and most completely equipped—is devoted to giving you a finer cigarette!

**T**HERE is no finer cigarette in the world today than Lucky Strike. Here's why: Lucky Strike means fine tobacco. And every step in the making of Luckies—from before this fine tobacco is bought until the finished cigarette reaches you—comes under the watchful eye of the largest and most completely equipped cigarette research laboratory in America.

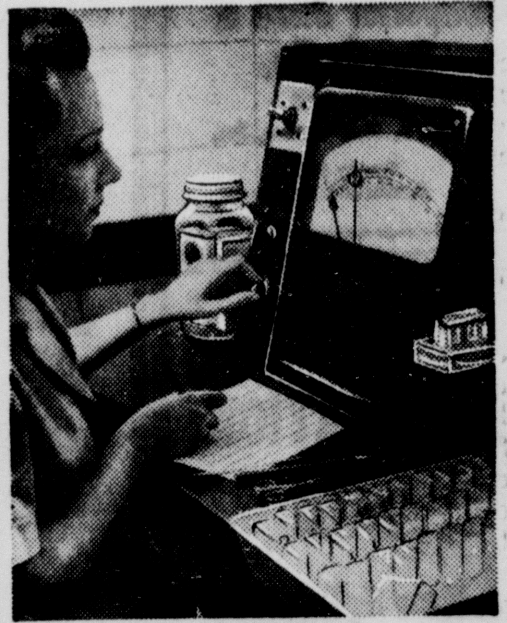

For many years, the famous Lucky Strike laboratory in Richmond, Virginia, has been a center of cigarette science and technology. In this remarkable building you can see a fascinating collection of scientific instruments—microscopes, spectrophotometers, balances, projectors, humidification chambers, and many other complicated and costly machines.

Working with this array of scientific equipment are more than 60 highly trained specialists—chemists, biologists, engineers, physicists. They work on tobacco, on finished cigarettes, on paper, foil, cellophane and even printing inks. For Lucky Strike scientists have for years delved into cigarette research on an extensive scale.

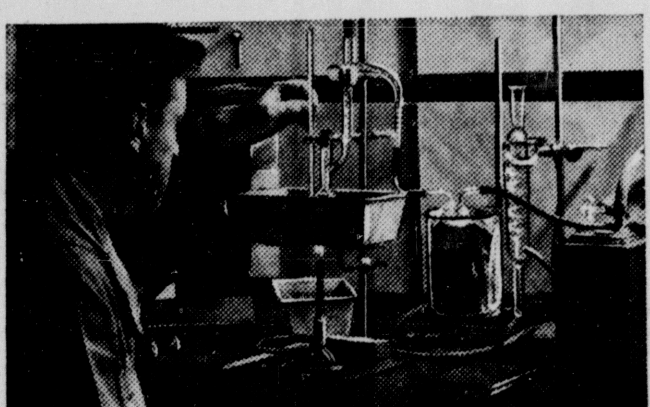

Today, because of the miracle of modern science, Lucky Strike is a finer cigarette.

Testing tobacco. Samples from every tobacco-growing area are analyzed before and after purchase. These extensive scientific analyses, along with the expert judgment of Lucky Strike buyers, assure you that the tobacco in Luckies is fine, light and mild. No wonder Luckies are a finer cigarette.

Luckies stay fresh. After Lucky Strike cigarettes have been packaged, they must be tightly sealed to remain fresh. Here you see the cellophane seal being tested for air-tightness. Such instruments are in constant use at every plant.

Research leads the way. Only constant, painstaking, exhaustive research—as conducted on a large scale through the years by The American Tobacco Company—could produce the scientific knowledge that results in the quality of Luckies.

# Seek To Complete Identification Of Plane Crash Victims

Twenty-One Of 35 Dead Have So Far Been Identified—Probe Is Pressed

LOS ANGELES, July 14.—(INS) Officials strived today to complete identification of 33 persons killed in the crash of an unscheduled airliner and other authorities pressed a 3-way investigation into the disaster and the first fight which may have caused it.

Twenty-one of the dead have been identified. Bodies of the others were so badly burned that immediate identification was impossible.

The 14 survivors, all hospitalized with serious injuries, told harrowing stories of the horror aboard the New York-to-Los Angeles airliner when it crashed Tuesday against the fog-hrouded mountain peak near Chatsworth.

Telis Of Fight  
Stewardess Charlotte Grenader, only survivor of the crew of four, told investigators that a fist fight broke out between two passengers shortly before the pilot radioed the Burbank control tower of trouble aboard and asked for permission to make an immediate landing at Burbank.

Miss Grenader, hospitalized with a broken leg and other injuries, identified Frank Conway of Albany, N. Y., as the man who struck his seat-mate. Conway perished in the crash. The identity of the other passenger, also killed, was not known.

Los Angeles Police Detective Douglas Ingram quoted an unidentified woman passenger as telling him that the crash was caused by Co-Pilot Harold Tucker being shoved into the controls by the fighting men.

# Romeo Is Given Year's Sentence

DETROIT, July 14.—Balding Earl Conners may have a year in jail in which to reflect on his romances with 14-year-old girls.

The Kentuckian, 42, who married four girls of 14, got the year's sentence in a back alimony case involving wife No. 2.

Circuit Judge Ira W. Jayne ordered Conners to pay half the \$2200 due Flora Montie "immediately" or do penance behind bars.

Conners also faces sentencing on a charge of contributing to the delinquency of 14-year-old Fatima Hussan, his latest bride. Two of the four girls divorced him. The third died.

Actually, Conners said, he has been married six times. The other brides were 15 and 39. Divorces followed.

# Turkey Supply Expected To Be Ample This Year

Large Supply Of Turkeys Appears To Be Assured In Pennsylvania

HARRISBURG, July 14.—(INS) —Pennsylvania's holiday festive boards won't lack for turkey, it was reported today by the state agriculture department.

A federal-state survey of Commonwealth farms shows that a large supply of turkeys "appears to be assured" for holiday dinners.

The study disclosed that production of turkeys has been well above normal. Earlier in the year, Pennsylvania farmers notified the department of intentions to produce a crop of 1,441,000 turkeys, only 19,000 below the all-time record of 1,460,000 in 1945.

The department reported chicken egg production for June totaled 241,000,000, 18 per cent below May production and eight per cent under the June, 1948, output.

Fewer layers in farm flocks and a low rate of production per hen contributed to the seasonal decline, the survey showed. Layers averaged approximately \$15,000,000, seven per cent below the May average.

Abnormally hot weather through-

out June was unfavorable to egg production.

The department also reported that Pennsylvania dairymen produced 540,000,000 pounds of milk during June, tying the all-time June record established in 1947. High production was attained despite poor grazing conditions in many sections of the state.

Milk production for the first six months of 1949 totaled 2,951,000,000 pounds compared with 2,799,000,000 in the comparable period of 1948.

There seems to be a growing belief that the St. Louis Cardinals and not the Dodgers will win in the National League. In the American League, all is confusion.

out June was unfavorable to egg production.

The department also reported that Pennsylvania dairymen produced 540,000,000 pounds of milk during June, tying the all-time June record established in 1947. High production was attained despite poor grazing conditions in many sections of the state.

Milk production for the first six months of 1949 totaled 2,951,000,000 pounds compared with 2,799,000,000 in the comparable period of 1948.

There seems to be a growing belief that the St. Louis Cardinals and not the Dodgers will win in the National League. In the American League, all is confusion.

New Zealand's wild life branch of the Department of Internal Affairs is establishing huts in the Kaimanawa, Ruahine and Tairāra ranges of North Island, to intensify its efforts at pest control. Last year nearly 100,000 animal pests were killed. Included were 73,000 goats, 13,500 deer, 5,000 pigs and 4,000 wild sheep.

egg production for June totaled 241,000,000, 18 per cent below May production and eight per cent under the June, 1948, output.

Fewer layers in farm flocks and a low rate of production per hen contributed to the seasonal decline, the survey showed. Layers averaged approximately \$15,000,000, seven per cent below the May average.

# Austerity Fare Breeds Big, Healthier Britons

By WALLACE S. HULLETT  
(U. S. Staff Correspondent)

LONDON. — (INS) — Britain's long-term austerity diet has surprisingly resulted in an improvement in the health and physique of her young men.

A survey just issued by the Medical Research Council—prepared by statistician Dr. W. J. Martin—analyzes the records of more than 90,000 twenty-year-old men called up for military medical tests.

It includes the low-grade men who were rejected as well as the men who passed and the doctors claim it is a fair cross-section of Britain's up-and-coming manhood.

## Cockneys Catching Up

The report found that the Cockneys of London, in physique, are fast catching up on the caber-tossing Celts of the Scottish Highlands, who are still the best-proportioned men in this island.

Eighty years ago the average Scot was 101 pounds heavier and one inch taller than a sample Englishman.

But now the quick-witted Cockney boys are the same average height as the heather-trampers—5ft. 7 1/2 in.—and have cut the weight difference down to 5 1/2 pounds.

Chief conclusion of the report is the fact that physique and fitness do not always go together.

Thus in spite of their brawn the Highlanders are not the country's fittest men. They are beaten by the Lowland Scots and also by the spare, wiry "Geordies" of Northumberland and Durham.

These Tyne and Teeside men, who put up a score of 84 1/2 per cent Grade 1 recruits, have mystified the doctors by their fitness.

Many of them grew up in squalid depressed towns like Cateshead, Sunderland and Jarrow.

"It seems remarkable that such a large portion of these men should have been physically fit when the economic conditions during their years of rapid growth were so bad and their environment conditions so poor," stated Dr. Martin.

This news is soured still further from the social theorists by the fact that the men from the cream-and-cider counties of Devon, Cornwall and Somerset are among the least fit.

The report also revealed that Britons are growing faster.

"Fifty years ago the maximum stature of British men does not appear to have been reached until about the age of 26," stated Dr. Martin.

"Today it is being attained at about 21."

## Makes Unusually Large Pair Of Shoes

—New Castle News Photo

James Caravella, a shoemaker with his shop at the corner of Mill and North streets, displays an over-size shoe that he has made for a woman, afflicted with "Elephantiasis", a disease causing the limbs to swell to permanently much over normal size. An over-size last was made by building up the size of a standard last with leather to meet the measurements of the foot. The left shoe has a sole 14 1/4 inches long and 6 1/2 inches wide. It is 11 inches high with a diameter of 13 inches around the top. The right shoe has a sole 13 1/2 inches long and 6 inches wide, is 11 inches high and has a diameter at the top of 13 inches. The work took two weeks of spare time to complete the pair of shoes.

## Offers To Sell Eye

—Acme Telephone

KANSAS CITY, Mo. — Paul Richter, 46, Kansas City, Mo., reads calendar on opposite side of room as he offered to sell his good left eye today for \$5000 in order that his ailing wife could spend her remaining days on earth "in peace and comfort". Richter, an unemployed painter, made the unusual offer as a last desperate hope to prolong his wife's life. "I've been plagued by bad luck since a youth," Richter said, "and I have about reached the end of my rope." Richter's right eye is slightly impaired because of an accident a few years ago.

## To Rule Against Local Option In Rent Control Law

CHICAGO, July 14. — (INS) — U. S. District Judge Elwyn R. Shaw of Chicago has announced that he will rule unconstitutional the local option section of the federal rent control law.

Judge Shaw made his statement concerning the local option clause while hearing a complaint against the rent law by Shoreline Cooperative Apartments, Inc.

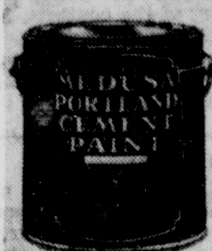

He said his final decision will be made later, and that he may rule the entire act unconstitutional. The jurist said he considers the local option provision is an unauthorized delegation of congressional powers.

## Probe Death Of Beaver Falls Man After His Arrest

BEAVER FALLS, Pa., July 14.—(INS)—State and local authorities today continued separate investigations into the death of a Beaver Falls restaurant owner following his arrest for a minor traffic violation.

Sebastian Medaglia, Jr., 29, died Tuesday in the Providence hospital. Coroner's Physician Thomas McCreary said an autopsy disclosed Medaglia's death was due to a four-inch fracture of the skull and hemorrhage.

Medaglia was arrested last Friday night by Beaver Falls Patrolman Robert E. Thatcher. According to the officer's report, Medaglia lost his balance and fell while trying to take a swing at him in the police station following his arrest.

Records show that the dead man was once named in a counter divorce action filed against the officer's wife, Mrs. Mildred Thatcher, 24, when she was seeking a divorce from her previous husband, Edward J. Kapusinski. Kapusinski had charged his wife with adultery, and named Medaglia.

Thatcher stated Medaglia suffered a cut lip and was taken to the hospital where it was treated. An examination at the time showed no other injuries.

The police report also stated that Medaglia was then driven to his home in a police car, where he got \$12 forfeit to pay for the traffic violation. After paying the forfeit, he was sent home again. A coroner's inquest will be held Tuesday.

## WILLIAM GEARHART ARRIVES AT CRETE

## Plan Swimming Pool At Big Run Playground

Sports Day attracted many to Big Run playground. Work is well under way for the completion of the swimming pool at the park. The photo above shows playground boys helping the fire department drain the pool.

There were winners galore at the annual Sports Day at Big Run playground! The field was alive with activity, and every child at the ground was participating in some game.

Winner of the jacks contest was Katherine Joseph, while Judy Shaffie won at pick-up sticks. Races were held, with David Amodic, Tom Amodic, and Katherine Joseph as the winners.

Two boys could really throw a ball, and Raymond Paino and George Joseph won prizes for themselves. Girls capturing prizes at handball were Mary Jane Tarnoci and Katherine Joseph, while Richard Tarnoci and Benny Benigas were victorious for the boys. Lucky winners at basketball were Willie Roth and Albert Hassan.

Big Run has checker champs, and these popular fellows are Albert Hassan and Jimmy Shaffie. Prizes for the contests were lollipops. Ribbons were presented to Katherine Joseph for being the winner of most of the contests, Albert Hassan for winning the next most games, and George Joseph for participating in most things and also being a winner.

## Youth Progressive Club Has Meeting

Members of the club surprised their leader, Mrs. Leo Orelli, at a birthday party, held in her honor at the regular meeting, Wednesday, July 13, in the home of a "teenager," Miss Rose M. Palmer, of 116 Friendship street.

Mrs. Orelli was remembered with a lovely gift from all the girls. Diversion of the evening was changing "big sister" names and electing Miss Doris Pascarella as chairman of parties and special events. July marks the first anniversary of the club.

Mrs. Margaret Fortney captured the door prize and Miss Mary Ann Pascarella was a special guest.

When the club's cooking class begins in September, two new members will be taken in also.

## Lunch was served by the hostess, with a large cake as the feature.

Next meeting will be held on July 26, with Miss Doris Pascarella as the hostess.

The purpose of the Teen-age Progressives is to teach the girls domestic science.

## Arrest Driver After Hitting Cow

Ellwood City Men Charged With Driving While Intoxicated Early Today

When Warren S. Wilson, Jr., aged 25 years, of Spring avenue, Ellwood City, had the misfortune to run off the highway on the Mt. Jackson-Eldenburg road and hit a cow in the field of Wright Hoffmaster at 5 a. m. today, he got himself into a lot of trouble.

Hoffmaster called state police, who found evidence that Wilson had been drinking, and he was brought to the New Castle police station, where Dr. William A. Womer pronounced him under the influence of intoxicating liquor.

Charges were preferred against him by state police before Alder-

man Jesse Kennedy of the third ward. The owner of the car was said by state police to be William Kirk of R. D. 2, Ellwood City, who faces a charge of permitting another to drive a car while under the influence of intoxicants.

## Service Station At Walmo Robbed

# Competition For Coal Contract For City Schools

Six Bidders Sought Job Of Providing Coal For New Castle Schools

## OTHER ACTION AT BOARD MEETING

For the first time in seven years, the coal contract for the New Castle schools became a highly competitive affair Wednesday night.

In the past seven years there has been but one bidder, Maxwell and Gibson. On Wednesday night there were six bidders, with Maxwell and Gibson getting the contract at the following prices: Two inch screen, \$9.39 per ton. Nut \$9.20 per ton. Nut slack, \$8.75.

Other bidders included the Love Coal Company, C. C. Sweesy, Grove City Construction Company, Boyles Coal and Supply Company and the Fombell Coal and Supply Company.

### Bids Close

The bids were close although some of them were for coal which was not the type sought by the board. The question was raised by President Howard L. Reynolds as to why the contract could not be divided, but it was pointed out that Maxwell and Gibson had made a total tonnage bid and the entire contract went to them.

The board agreed to go along with the city council and pay one third of the cost for cutting the weeds upon properties held for taxes by the city, county and school district.

Director Daniel B. Woolcock said the fire escapes on most of the buildings were unsafe and asked that bids be advertised for repairs to them. Secretary John B. Bechtel was authorized to advertise.

### Electrical Bids

A contract was awarded to the Huston Electric Company of East Brook, to re-wire the Highland and Mahoning schools and to complete a one room installation in each school under modern lighting conditions.

The price of the Huston Company was \$3,031 for the Highland school and \$1,591.75 for the Mahoning school. Similar contracts will be let for the other schools in the city within succeeding months. Five bidders submitted prices.

Strouss-Hirshberg Company was awarded the contract for 80 shakos and two new uniforms for the band. Their prices, shakos, \$9.55 each, uniforms \$58.39 each.

Forty-six janitors were elected for the coming school term.

NEW YORK, July 14.—The "plush look"—at popular prices—will be in vogue next fall.

Eight big-name designers gave previews of their fall collections in New York today, and featured soft velvets, suedes and fleeces.

Prices, they said, will drop about 10 per cent next season, despite the lushness of fabric.

Designer Herbert Sondheim credited the up-in-quality and drop-in-price to a friendly revolution in the fabrics industry.

Both imported and American-made materials, he said, have whacked down their price tags.

## LIVE NORMALLY DESPITE HANDICAP

AMONG THE PEOPLE who have found new hope through vocational education for the handicapped in the State of Washington are Stanley Norman of Seattle and his wife, both confined to wheelchairs for more than a decade. Mrs. Norman is busy getting supper ready while her husband finishes some work he brought home from the office. The couple met seven years ago at a party given for the shut-ins. (International)

## Mrs. McKnight To Be Mission Dean

Named To Post For New Wilmington Missionary Conference—Other News Of Town

NEW WILMINGTON, July 14.—

Mrs. W. J. Harper McKnight of Pittsburgh, a former local resident, has been named dean of mission study for the 44th Annual Missionary Conference to be held here August 5-13.

Her husband, the Rev. W. J. Harper McKnight, is now pastor of the Boulevard U. P. church in Brookline. He was formerly dean of men at Westminster.

While her husband was in the service in World War II Mrs. McKnight served as a house mother for various sororities.

Ross Ellis, John McCandless and Melvin P. Hetzler represented the local Rotary club at the district convention at Grove City on Tuesday.

Mr. Ellis was inducted into the presidency of the local club Monday evening. Other new officers are David Boyd, vice president; Thomas Ashcom, treasurer, and John McCandless, secretary.

Walter Green and Roy Burnsides are new directors.

First Six weeks of summer school at Westminster college ends Wednesday. Registration for the second six weeks will take place on the same day with classes starting Thursday. The period will end August 31.

Final examinations for the first

six weeks will be held Tuesday and Wednesday.

The most important social event on the summer school calendar at Westminster college will take place Saturday. It will be the picnic at Presque Isle, Erie.

Students will leave the campus at 11 a. m. in a caravan of cars. A program of sports and swimming events is planned for the afternoon with a picnic supper at 5.

There will be dancing in the evening.

Mr. and Mrs. Harvey Mercer and Mr. and Mrs. Harold Burry are faculty chaperones.

"Contemporary Art—Revolution or Evolution?" will be the subject for the lecture to be delivered by William G. Faddis of the art department of Westminster college Thursday evening in the Wallace Memorial chapel.

The lecture will demonstrate the evolution of modern art from and

as a logical continuation of the art of the past.

This will be the third of a series of nine to be delivered by Mr. Faddis. The public is invited to the lectures which start at 8:15.

## Leesburg Youth To Hear Jack Allison

A special treat is in store for the young people of the Leesburg district Saturday evening at 8 o'clock, when Jack Allison, pastor of the West Side Alliance Mission, will be the speaker at the regular rally in the Leesburg Presbyterian church.

Mr. and Mrs. Allison are vocalists and will be heard in special music. A spirited song fest will precede the address of the evening. Richard Rice is director of the Leesburg rally.

## NEW OIL PROCESS FOUND

Herrings caught in the North Sea off Scotland will help provide margarine for European tables this summer. Millions of herrings annually are thrown back into the sea because people can't eat them fast enough. Now, a method has been perfected to yield

NINE

oil from the smell of the fish and a factory at Wick will process them, making oil for margarine.

World production of oil now has surpassed more than nine million barrels a day.

The first oil well in the Middle East was drilled by Britons in 1904.

## Few Persons Know What Cancer Is, Says Dr. Davis

Fear, Ignorance And Superstition  
Have Kept Mention Of  
It Taboo

Comparatively few residents of Lawrence county know what cancer is, says Dr. Mary Baker Davis, president of the Lawrence County Unit of the American Cancer Society.

Fear, ignorance and superstition have kept mention of it in the dim shadow of taboo topics for many years, says Dr. Baker.

Only recently has the public been willing to discuss cancer openly to any great extent and face the facts squarely. As a result of this recent discussion many persons have recognized the importance of learning about cancer to protect themselves and their loved ones from needless suffering and probably early death.

Cancer is a disorderly growth of the cells of the patients own tissues, according to Dr. Davis. This growth is disorganized, forms no useful structures, interferes with normal tissues, never ceases during the life of the individual and unless removed or destroyed completely ultimately causes death.

Cancer is not contagious, nor is it inherited. It is no respecter of age. It strikes in all age groups. Cancer took twice as many American lives during World War II as were lost in actual combat.

Last year cancer killed some 200,000 Americans, about 15,000 of whom were from Pennsylvania.

Nevertheless, there is a definite hope of cure for cancer patients, according to Dr. Davis. Many types of cancer can be cured in a high percentage of cases if detected in time and treated effectively.

The hope of cure for these same types of cancer in moderately advanced cases rarely is higher than 25 percent.

The United States is the leading oil-producing center in the world, with the Caribbean second and the Middle East third.

## Around Hollywood

By FRANK NEILL  
(International News Service Staff Correspondent)

HOLLYWOOD, July 14.—Max Factor, Jr., a guy who has been guiding the lilies in movietown for nearly a score of semesters, recently completed a nationwide survey on the cosmetic situation.

Factor's fact-finding disclosed that when it comes to things of such cosmic importance as lipstick shades, you may completely discount that ancient adage about babes not being able to make up their minds.

The make-up maker for screen stars found that 52 per cent of

American women have gone on record with a pronounced preference for "youthfully brilliant lipstick shades in glowing coral and pink tones." Other findings of the poll were that Hollywood actresses began favoring the brilliantly youthful shades in lipstick even before these shades caught the fancy of women throughout the nation. Nearly 74 per cent of these film players now prefer this shade range.

## Factor Findings

Further findings: Girls in Minnesota favor summer tan make-up shades more than do the naturally tanned girls of Arizona and New Mexico.

American girls of Japanese descent by no means agree with the native ladies of Japan in liking almost chalk-white complexion effects. They prefer the Latin-olive tones in make-up.

Chicago cuties either apply rouge and lipstick more heavily than those of Hollywood and New York, or at least replace or repair its applications more frequently. Anyway, they use a lot more of it. Gals of the deep south are inclined to insist on having their eyebrows penciled very blackly, even if their hair is of the fairest blonde.

Women of the United States who were born in Hungary or India more often than not aren't too happy about their eyeshadow unless it offers hint of gold dust sort of glitter. Those who can afford it will touch over an ordinary eyeshadow application with a dab of real gold dust.

## False Eyelashes

Hucksters of false eyelashes find their best key city markets are in Hollywood, New York, Atlanta, Dallas or Fort Worth, in that order. But they'd starve to death trying to peddle the goods in Boston, Portland (Oregon), Cedar Rapids, Terre Haute or Salt Lake City. Orchestra musicians, actors, salesmen, doctors, corporation executives who have steady contact with the public, and employees of banks, insurance companies, and department stores, are in the order named, the greatest customers for "non-detectable hairpieces," or "toupees."

American girls of Latin descent prefer make-up one or two shades darker than that generally ordered by Latin in their native countries. And odds are about 8-to-1 against a Latin brunette being inclined to tinker with her natural hair color to the extent of transforming it to blonde or redhead.

## Beautifiers Increasing

Factor's survey further found that nearly four times as many American women regularly use make-up today than was the case 30 years ago. The individual regular beautifier uses a lesser quantity of make-up than she did back in 1919.

This is purely due to the fact, Max Factor, Jr., opined, that these ladies are now applying their make-up much more thinly and daintily than was the case during the earlier years of the popular general practice of the art of make-up.

Factor said: "I practically never have to warn against the it-looks-like-it-was-pul-on-with-a-trowel make-up effect any more."

## Drop Reported In Oil Production

NEW YORK, July 14.—(INS)—Another sharp drop in crude oil production, and a small decline in gasoline stocks, highlighted the weekly American Petroleum Institute report Wednesday.

The Institute said that daily average gross crude oil output in the week ended July 9 totaled 4,667,750 barrels. This was the lowest daily production since January 18, 1947, when it was 4,623,950 barrels. In the week ended July 2, daily crude oil output amounted to 4,819,950 barrels.

Oil industry observers said the lower crude oil production resulted mainly from the curtailment in allowed production of oil in Texas. The railroad commission of that state lowered the maximum amount of oil that may be produced this month 125,101 barrels a day below June.

Gasoline stocks in the week ended July 9 totaled 113,763,000 barrels, a decline of only 237,000 barrels from the preceding week's total. In the week ended July 2, gasoline stocks had dropped 1,715,000 barrels from the week before.

Among the common names for the tiny evergreen wintergreen are teaberry, checker-berry, box-berry, Jersey tea, spice-berry and ground holly.

## O'Dwyer Announces Officially That He'll Be Candidate

NEW YORK, July 14.—(INS)—Mayor William O'Dwyer announced officially Wednesday that he will run for re-election this fall to defeat what he called a plot by Tammany Hall to "gain control of the city and its resources."

O'Dwyer's announcement—reversing his previous "I will not run" statements—was followed immediately by disclosure that District Attorney Frank Hogan would withdraw as a candidate, thus

avoiding a possible serious Democratic primary fight. Hogan was named by three of the five Democratic county leaders on Monday as their mayoralty choice.

## NAVY GIVES TWO SHIPS TO TURKS

CHARLESTON, S. C.—(INS)—The Turkish flag has been hoisted over the masts of two of the U. S. Navy's "moth ball" fleet destroyers in Charleston.

This is part of the U. S. Government's move to strengthen the Turkish navy under the Greek-Turkish aid program which passed the 80th Congress last year.

The two ships, now the T. C. Gaziantep and the T. C. Gemlik, were formerly the U. S. S. Lansdowne and the U. S. S. Lardner.

## Joseph Wagner On Hobby Show Tour

Joseph Wagner, formerly of 310 North Jefferson street is winning national recognition for himself as a hobby enthusiast according to national hobby magazine which is just out. Joe is portrayed in the magazine with his large truck filled with hundreds of hobby creations which is currently making a national tour.

The tour which began in Philadelphia has taken the New Castle youth across the country to California and is now swinging east. It

is hoped that the truck will make an appearance in New Castle early in September.

Mr. Wagner is the son of Mr. and Mrs. Joseph Wagner, Sr., also former residents of 310 North Jefferson street.

## SUSPEND LICENSE

HARRISBURG, July 14.—(INS)—The operator's license of Richardson Dilworth, Democratic candidate of Philadelphia in 1947, has been suspended indefinitely by the state for failure to appear for hearings stemming from a traffic accident a year ago.

T. Elmer Transeau, director of the Bureau of Highway Safety, said Dilworth had failed to appear at the

original hearing and one scheduled later for his convenience.

The accident occurred near Montgomeryville. The driver of the other car was Ben Shaff, of Windsor, N. J. Damages to both cars was in excess of \$300.

The suspension was ordered late yesterday, the day following Philadelphia's platform debate with Philadelphia Sheriff Austin Meehan.

## TAXI DRIVER DROPS DEAD

BOSTON, July 14.—(INS)—An East Boston taxi driver jammed his brakes in the middle of traffic near Boston city hall Wednesday, stopped the cab and slumped over the wheel. Police said the cabbie, Joseph Lamonic, 53, was dead of a heart attack.

## Successful Symphony Is Community Asset

Roy F. Conway, assistant superintendent of Lawrence County Schools, is a busy man. He helps the Red Cross, Community Chest, Cancer Society, etc., and is also a prominent lion.

One of his most recently acquired civic positions is that of vice president of the New Castle Symphony Association, the group of laymen organized to foster the orchestra in New Castle.

The popular educator took this last position because of the importance he attaches to having a successful symphony in this community. In a recent interview, Conway expressed the following thoughts concerning music in general and the New Castle organization in particular.

### Music For All

"Music was not created for artists alone or for art critics but for all the people. Music is definitely for educational, recreational and cultural purposes. New Castle folk by encouraging a symphony orchestra place itself with the leaders among communities that appreciate the value of music in the home, in the character building, in the church and as a vocation."

"Music makes good citizens: It is an outlet for emotional tension, a means of self expression needed particularly for every youth and a wholesome activity that eliminates desires for anti-social behavior."

"Music makes happier lives: It gives the individual outlet for expression. Lack of such outlets in too many cases leads to frustration which may emotionally distort an individual's reaction to society."

"Music teaches values that are the foundation of American life: It is one activity of youth in which it is impossible to get by without the best possible effort. It teaches youth that they must work and produce to get what they want. It is one of the finest means of teaching discipline, teamwork and perseverance."

### Democracy At Work

"Music teaches democracy: Ability and enjoyment from playing instruments know no class, creed or social distinction. Music belongs to everyone. Every youth should have the privilege of developing innate talent."

"Music binds people together: In the home, in the community and in the nation. It makes for better relationship everywhere."

"Behind the New Castle Symphony Orchestra lies patient and devoted work by the players, sponsors and patrons and those dedicated to bring the good things of life to everyone."

"Rehearsals must be held, study groups must be formed, young, undeveloped talent must be encouraged and financed. Anthony Casero, hard working and dynamic conductor of the symphony orchestra feels the youth definitely has a place in the musical life of New Castle."

### Tickets On Sale

Junior members are now selling series tickets for the Pop Concerts, to be held at Taggart Stadium on Wednesday evening, July 27 and August 31 at 8:30 p. m. Should it rain, the concerts will be held the following Wednesday evening.

Series tickets may be exchanged at South Side, Donati, Hammond or Flemings Music Stores for reserved tickets, or at Stadium night of concert. Single admissions may be purchased night of concert at the Stadium.

## Moose Family Picnic At Cascade Sunday

It will be a day of enjoyment Sunday at Cascade park, for the families of the Moose lodge 51, it was announced today by Governor Joseph Todd.

The annual "Family Picnic" will get under way about 1 o'clock. There will be free rides and eats for the women and children. There will be plenty of entertainment provided for everybody.

The kiddies of the Moose members look forward to this picnic eagerly each year.

## Priest From Italy Will Arrive Here

To Spend Summer Months Here From His Duties In Florence, Italy

Mr. and Mrs. Joseph Corio, of 137 East Edison avenue, received a radiogram on Wednesday, announcing that his brother, Rev.

Fr. Gabriel Corio, of Florence, Italy, will arrive on the LaGuardia steamship on July 18.

Mr. and Mrs. Corio and their son, Alfred, have departed for New York City, where they will meet Father Corio, whom Mr. Corio has not seen since 1923.

Father Corio will visit here during the summer. The koala of Australia never drinks but gets enough moisture from young eucalyptus leaves on which he lives.

## "Assignment; America"

By INEZ ROBB  
(Reg. U. S. Pat. Off.)  
(Distributed By International News Service)

NEW YORK, July 14.—(INS)—Millions of New Yorkers who haven't got the mood for a vacation in Honolulu, who would look silly in a grass skirt and can't ride a surf board anyway, are having themselves a very fine vacation in Hawaii this summer without moving off the island of Manhattan.

A brilliant slice of the islands has been set down in the middle of New York for free, for the enjoyment of us cliff dwellers and the hundreds of thousands of tourists who make this city the nation's biggest hot weather resort.

In Rockefeller Center  
The bit of Hawaii will be anchored in Rockefeller Center during the rest of July and all of August, thanks to the Rockefeller peregrinations, to the 60 women who comprise the Garden Club of Honolulu to the Hawaiian Visitors' Bureau, and to three American airlines.

This combination has turned the channel gardens of Rockefeller Center, which open on Fifth avenue, into a Hawaiian setting complete from black lava sand to leis made of 750 orchids.

It is one of the most enchanting horticultural displays to which have been exposed. It runs the gamut from shocking pink pineapples to a weird and wonderful floral what-not called "Heliconia" that looks like a dozen or so luscious, life-size lobster claws growing along a central stalk.

Eight to ten times a year, the Rockefeller pin a corsage on New York when they plant seasonal blossoms in the channel gardens, with their slow cascade of water flowing from six central fountains.

It costs the Rockefeller between fifty and sixty thousand fast bucks annually to pin 6000 tulips on the city in the early spring, to switch to 10,000 Easter lilies at Easter

time, to the iris and dogwood in May, the roses in June, the masses of chrysanthemums in the autumn and the evergreens of winter, climaxed by the great Christmas tree that lights up mid-Manhattan during the holidays.

Not Costing Anything  
But the present Hawaiian display isn't costing anyone a red cent, save the toil and toils of the 60 Honolulu women who twice a week strip their gardens of their rarest blossoms and pack them for shipment by air to New York.

Because of the federal quarantine on plants entering the United States from abroad, the women must fumigate the display and sterilize the soil, under fee al in-

spection, before the lush, exotic vegetation can be shipped here.

The Honolulu Garden Club, which began preparing for this display last January by building 20 portable greenhouses in which the flora was to be shipped aboard the Matson liner "Hawaiian Retailer" had to scrap all these plans once the dock strike paralyzed Hawaiian shipping.

It was at this point that the project was taken over by three American airlines, United, Northwestern and Pan-American, stepping forward and offering to fly the display here without cost.

Ten tons of background material alone made up the first shipments. Now, two plane loads of fresh plants and blossoms arrive weekly to replace those Hawaiian plants that can stand tropic heat but not the city heat reflected from the pavements of New York.

Mrs. Juliet Wickman, an honorary member of the Honolulu Garden Club, and George Moody, Honolulu jeweler and designer who has planned the display, came to New York to set up the exhibit.

NEW CASTLE, PA., NEWS, THURSDAY, JULY 14, 1949.

Even the most useful Hawaiian vegetation is fabulously exotic to state. "Moody pointed out that the taro, its huge and beautiful leaves, the plants from which all the Polynesian peoples make their flour."

"And this is the Ti," Moody added, pointing to a gorgeous maroon leaf. "It comes in every color in the world and the Hawaiians make a native drink, okole hau, from it."

"It's a wonderful drink for any one who wants to get falling-down drunk," Moody added. "You get the same effect from being hit in the head by a dull-dozer."

NAMES CHIEF CHAPLAIN  
WASHINGTON, July 14.—(INS)—President Truman today nominated Col. Roy Hartford Parker to be chief of chaplains of the United States Army with the rank of major general.

## Fourth Round Wage Increase Would Be Mistake Now

NEW YORK, July 14.—(INS)—Henry Ford II said today it would be a "great mistake" to grant at this time a demand for a fourth round wage boost by the CIO United Automobile Workers.

market this fall and we can't keep prices down if wages go up," the automobile executive said on his arrival in New York aboard the Queen Elizabeth.

NAVY ELIMINATES TESTS  
Chief S. E. Bond, of the Navy Recruiting office, announces that outstanding applicants may now enlist in the Electronic Field Seaman program directly without taking special tests.

Previously tests were required for all admissions into this service.

"I don't know much about the strike situation. I think it is in the negotiation stage."

# Significance In Byrnes' Attack

See New Link Between Republican-Southern Democrat Congress Coalition

## OTHER NEWS OF NATIONAL AFFAIRS

(Special To Central Press)

WASHINGTON, July 14.—Foes of the administration are quick to interpret the lashing attack of former Secretary of State James Byrnes on President Truman's domestic program as a new link between the Republican-Southern Democrat coalition in Congress.

They say that it means more trouble for the Truman legislative proposals in the final days of this session of Congress.

Beyond this, they are pointing to Byrnes' eye of "statism" as proof that he quit the Cabinet after a disagreement with Mr. Truman, and not because of ill health.

Rumors to this effect were current in Washington at the time Byrnes stepped down, but they were denied both at the White House and by Byrnes.

Justice Department Upset  
Insiders at the Justice department say that FBI Chief J. Edgar Hoover wanted to drop the spy trial of Judith Coplon rather than have secret FBI reports made public.

Hoover and his G-men, of course, knew about the alleged activities of Miss Coplon for some time before her arrest and had kept a close check on her.

When the matter was brought to the attention of Tom Clark, the attorney general immediately ordered the woman brought to trial on espionage charges.

Hoover, according to reports, disagreed with Clark. The FBI chief is said to have contended that a public trial would do no good and the best way to handle the matter was simply to transfer Miss Coplon to another job.

The upshot of Clark's decision was that the reports were made public and Bureau of Standards Director Edward U. Condon, whose wife was mentioned in one of them, demanded an apology from Hoover.

Matters apparently have been smoothed over now, however, since Condon wrote Hoover retracting his demand for the apology.

Communist China  
Despite the extreme American, antipathy toward Communism, informed sources in Washington believe that the United States will extend de facto recognition to the Chinese Communist government.

These observers believe that the recognition will come about Aug. 1 if Congress has adjourned by that time.

In the meantime, the administration will have given the legislators ample opportunity to put on the record their views in connection with the controversial matter. Thus, when recognition is extended, the senators and congressmen can say—"Don't blame me. . . I said I was against it."

The State department is forced to take a realistic view of the situation. The Communist forces do not seem likely to be dislodged from the areas they now occupy, and millions of United States dollars are invested in these localities.

Recognition, therefore, will come in exchange for a Communist promise not to interfere too rigidly with American commerce.

# Crop Conditions In Much Of State Greatly Improved

HARRISBURG, July 14.—(INS)—Crop conditions in most of Pennsylvania were improved today by above-average rainfall.

The State Department of Agriculture said a federal-state survey showed southeastern and eastern border counties in the drought area did not benefit as much as others.

Many soils in the southeastern corner of the state still are very dry and plants are making little growth, according to the report.

Most field work on Pennsylvania farms is ahead of schedule, the department reported. Harvesting of hay and winter grains is well advanced, with wheat yields reported good. Rains were too late to im-

prove short stands of oats and poor yields are expected. Buckwheat seeding is nearing completion.

Corn, potatoes and tobacco improved materially following the rains, according to the department. Early potatoes are smaller than usual but of good quality while later varieties have improved. Tobacco plants are growing well but some stands are poor.

Early apple picking is well advanced but early peaches in the Lehigh area are small due to the dry weather. Sour cherry picking progressed in the Erie fruit belt and is nearly completed in the Adams-Franklin area, the department reported.

At the same time, however, the agency spurred private demands that it personally construct the needed storage facilities.

The department said that "provision of the needed facilities is a matter for the industry itself."

**Bulk Storage Critical**  
The department reported that

# Greater Facilities For Rice Storage Urged In South

WASHINGTON, July 14.—(INS)—The government asked Louisiana warehousemen to build more bulk storage space to alleviate a "serious" shortage which has boosted storage costs for rough rice an extra 50 cents per 162 pounds.

The agriculture department also said that more rice drying facilities are urgently needed in some Louisiana areas.

At the same time, however, the agency spurred private demands that it personally construct the needed storage facilities.

The department said that "provision of the needed facilities is a matter for the industry itself."

**Bulk Storage Critical**  
The department reported that

Louisiana's public bulk storage facilities were able to accommodate only about five to six per cent of last year's 81,170,000-bushel crop.

A prospective record crop of more than 86 million bushels this year is expected to make bulk storage shortage even more critical.

Unless additional space is provided, the department said that "it will be impossible to realize fully the savings in costs that are possible through use of the combine in harvesting rice."

The department has authorized the export of 474,740,000 pounds of milled rice during the second half of 1949.

## Conspiracy To Maintain High Prices Is Charged

Indictments Returned By Federal Grand Jury Against Kitchen Equipment Concerns

PHILADELPHIA, July 14.—(INS)—A federal grand jury indictment charging conspiracy to maintain high prices has been returned against four kitchen equipment manufacturers doing business in Pennsylvania, New Jersey, Delaware and Maryland.

The indictment returned in Philadelphia yesterday named an officer of each of the four concerns and a fifth individual who is charged with entering into the alleged monopoly.

The firms manufacture, sell and install industrial, commercial and institutional kitchenware.

**Federal Charge**  
The federal charge states that the alleged conspiracy was aimed at maintaining prices at "high and non-competitive levels" and restrained the free flow of interstate commerce.

Named as defendants are: Abbycraft Co., Irving Young, president; Victor V. Glad Co., John J. Carson, secretary-treasurer; W. F. Dougherty & Sons, Inc., W. F. Dougherty, treasurer; all of Philadelphia; Nathan Straus-Duparquet, Inc., George P. Ahner, vice president, New York, and Russell J. Gloekler of Dyncwood, Pa., with offices in Philadelphia.

The defendants are scheduled to appear before the U. S. district court for arraignment on July 26. Maximum penalty in the event of conviction is \$5,000 fine for each firm and \$5,000 for each individual or a year in prison or both.

## Try And Stop Me

By BENNETT CERR

Gene Fowler's classic account of the execution of Ruth Snyder and Judd Gray (reprinted in Ward Greene's newly published Star Reporters) appeared originally not only in the New York American, but in hundreds of other newspapers throughout the country, including a small daily in a town in west Texas which we shall call Dunnell. The managing editor of this paper spread it on the front page. His staff consisted of one cub who was so impressed by the story that he cut it out and put it in his scrapbook.

At this point, asterisks denote the passage of several years.

A murder is committed near Dunnell. The guilty man is caught and the cub is assigned to the execution which takes place at a town we shall call Buntsville. That night the execution story by the cub begins coming over the wire from Buntsville and it is a honey. The managing editor, reading the first 200 words, says to himself, "This sounds familiar. Where have I read this stuff before?" By the time he finishes the yarn he realizes that the cub has lifted outright Fowler's story of the execution of Ruth Snyder and Judd Gray, and merely substituted the name of the Texas murderer.

Here's where we fool you. The managing editor did not kill the yarn. He decided that nobody would remember Fowler's story, and he spread it all over the paper. He was right. Nobody did remember Fowler's story, least of all the owner of the paper, who arrived at the office the next day, gave the cub a bonus, fired the managing editor and made the cub managing editor in his place! ### ASKING GUESTS FOR WEEK-END

"My husband has a new business associate. We want to ask him and his wife to spend a weekend with us. Would you be considered rude to state definitely how long we wish them to stay?"

Answer: Indeed, it would not be at all rude for you to state in your invitation that the visit is to be from Friday in time for dinner until Monday morning or from Saturday for lunch until Sunday evening, as you prefer.

Invitations of this kind may be extended by letter, telephone or telegraph and you should very definitely state the time of your guests' arrival and departure so that there will be no misunderstanding. In fact, it would not be at all amiss for you to state that there is a Monday morning train at 8:30 in time for Bob's return to office or at 9 o'clock Sunday evening. It is better to state your facts so that your guests will know just how to plan their weekend and make their own arrangements accordingly.

Question: I plan to marry soon and will have two attendants. I shall wear a street-length afternoon dress and my two attendants will likewise wear street-length dresses. I have been told that this is not correct. Will you advise me?

Answer: If the bride will dress in informal clothes, she should have only one attendant—a maid-of-honor. Bridesmaids belong only in a wedding in which the bride dresses in the traditional bridal attire.

Present your problems to Miss Markel who will promptly send personal replies to questions from readers enclosing stamped, addressed envelopes.

## Report President Will Take Steps For Army Reorganization

WASHINGTON, July 14.—(INS)—President Truman is reported ready today to carry out reorganization of the armed forces by executive order if Congress refuses to act on a unification bill. The chief executive is said to be highly irritated at the 13-12 vote in the House armed services committee Tuesday shelving the Senate-approved unification bill pending a probe into B-36 procurement.

Chairman Vinson (D) Ga., went to the White House directly after the vote and later told newsmen that he would attempt to have the committee reconsider its action. However, such a move would take the unanimous approval of the group, and this was seen as doubtful, particularly in view of the strong opposition of Rep. Van

Zandt (R) Pa., who pushed through the shelving motion.

Van Zandt, a naval reserve officer, is sponsor of the B-36 probe. If the president decides to act for unification, the House can override him within 60 days provided at least 218 members turn thumbs down on his executive order.

The Senate armed services committee, meanwhile, delayed a vote which may decide whether the 302 million dollar military pay boost bill becomes a victim of the unification tug-of-war.

The bill, already passed by the House, is designed to bring into balance the military pay system, which has not had a complete overhaul since 1908. It would also revise the retirement system in the armed services.

**ORDERS SIZE 14**

The youth, five feet and six inches tall, ordered size 14.

## Dick Haymes And Nora Eddington Secure License

SANTA MONICA, Cal., July 14.—(INS)—Singer Dick Haymes and Nora Eddington, former wife of film star Errol Flynn, were making plans today for their wedding next Sunday.

The two slipped into the Santa Monica city clerk's office just before closing time yesterday and obtained their license to wed.

Nora and Dick held hands while they answered the clerk's questions. Haymes gave his age as 33 and Nora, 25.

They said that they will be married at Haymes' home in Beverly Hills. Previously they had announced that they wanted a church wedding.

## Seventh Ward

Ward Playground  
Has Sport Events

Playground Picnic Followed By  
Keen Sports Contest—Mush-  
ball Teams Win

On Wednesday, a large number of young folks gathered at Mahoningtown playground at noon for a picnic, bringing their lunches along.

Following the picnic a fine sports program was presented with a large crowd of spectators present.

There were races and contests for boys and girls groups. Three-legged race, 50-yard dash, sack race, relay races and skill in shooting basketball into the basket.

An account was kept of the winners in each event and points totaled, with the following result: First prize was captured by James DeVidio, second place was won by Frank DeFelice, and third prize awarded to Carol Sarbo. Jimmy Gettings, Louise Barattino, Elizabeth Muntean and Angelo Canale received honorable mention.

Miss Gerry Ginsberg and Don Black, supervisors of the playground, were in charge of the picnic and the sport events.

Tuesday the Middlets and the Juniors were victors in their mush-ball games with the Rose avenue and Home street playground teams.

Women's Auxiliary  
Farewell Breakfast

Members of the Mabel Wilson lodge No. 567 gathered at Cascade park on Wednesday morning for a farewell breakfast honoring Mrs. Rose Mullen, who soon leaves to make her future home in Florida. There were about 40 present.

The repast was served in the lodge at 10 o'clock.

Mrs. T. J. LaRock, president, presented a nice gift to the honored guest on behalf of the lodge members. Mrs. Mullen graciously responded, thanking all for their kindness.

After a social period, the group made a tour of the park. Breakfast arrangements were in charge of Mrs. Joseph Doone, Mrs. T. J. LaRock and Mrs. William G. Sapper.

Next regular meeting is scheduled for Tuesday, July 26, in the lodge room; hostesses will be Mrs. Clare Uber, Mrs. O. F. Shaffer and Mrs. Frank Connors.

Ward Soldier Soon  
Goes To Okinawa

Pfc. Frank L. Caney has returned to camp after concluding a seven days furlough visiting his foster parents, Mr. and Mrs. Bert Stevens of East Clayton street. Pfc. Caney has successfully

completed the construction equipment course MOP, conducted by the engineer aviation training center in Georgia.

Frank will leave in a few weeks for overseas duty at Okinawa in the Pacific, where he expects to be stationed for one and a half years.

Show Parade Movies  
At Columbus Hall

At Christopher Columbus hall members of Columbus auxiliary assembled on Wednesday evening for their regular meeting, with Mrs. Mary Iovanella in charge.

Plans were made for a social event on Thursday evening, August 4, with Mrs. Iovanella in charge of arrangements.

Members and friends enjoyed the showing of moving pictures of the Memorial Day parade in the ward, by Patsy Ionotta. Pictures were taken by Tony Pastore and Lou Castele.

Make Final Plans  
For July Festival

This evening at 7:30 there will be a regular meeting of St. Margaret's Council in St. Margaret's hall, North Liberty street, with Nick Perrotta presiding.

It is expected that final arrangements will be made for the St. Margaret's Day festival on Wednesday, July 20.

## SEVENTH WARD NOTES

At Madison Avenue Christian church there will be a meeting of the teachers and officers following the Sunday morning service.

Andrew Russo of 218 South Cedar street is confined to his home with an attack of arthritis, having to return from his employment in the Penna railroad round-house this morning.

We have received word from Rev. and Mrs. J. L. Petrie of Mahoning Methodist church of their arrival in St. Thomas, Ontario, for their vacation, after spending a few days at Chautauqua Lake, N. Y.

Word comes from Beaver Falls that Otto Howman, a fireman, secured two extinguishers from a garage and put out a fire on Tuesday in a 1942 Buick station wagon owned by Emilio Canale of the ward. Defective wiring was blamed for the fire which completely destroyed the wiring and scorched the hood of the vehicle.

## ISLE REPORTED LOST

Fou Islet, off Mauritius in the Indian ocean east of Madagascar, was completely washed away by a recent cyclone, Antonarivo hears. Four men on the islet lost their lives. Another tiny isle, Avocale, was under six feet of water and all boats and buildings had been carried away.

The first top quality crucible steel in America was produced by a bricklayer, whose hobby was chemistry, William Garrard, in 1832.

Cosmo Club To  
Picnic, July 17

Cosmo club members, and their families will enjoy the club's annual outing at El Rio beach, Sunday, July 17.

The event will start at noon, and will be a complete day of activity with special forms of entertainment for the kiddies. There will be free rides, ice cream and races to occupy their time.

This annual picnic has been growing in popularity year by year, and his year is the seventeenth picnic reunion, which is expected to attract hundreds of members and their families. Out of town guests visiting here are also invited.

Al Caplan and George Abbott are on the entertainment committee who have planned the entire day's activities.

Ex-Captain Learns  
Mere Money Dull

Forty-Three-Old Pittsburgh Man  
Handles 500 Million In Gold  
During War Days

PITTSBURGH—(INS)—The international banking game is an old one to Frank C. Gabell, a 42-year-old former army captain who isn't much impressed by large sums of money.

Gabell, a public accountant in Pittsburgh, handled something like 500 million dollars in gold and silver bars, currency, diamonds and securities during a two-year stint as civilian chief of the foreign exchange depository in the Frankfurt Reichsbank.

The international banking deal started about a year after V-E day. Gabell had been a captain with

the second armored, 29th infantry, and 84th infantry divisions during the war.

Then, some army brass couldn't figure out what to do with thousands of gold bars which some GIs had found in a German salt mine.

## Sets Up Special Staff

Gabell set up a staff of specialists who began sorting, storing and returning Nazi war loot. Securities were measured by the truckloads. There were, for instance, 12 tons of securities for one European oil company. They recovered 17,000 carats of industrial diamonds—worth about a cool 10 million dollars—which had been stolen from the Netherlands.

Gabell claims the depository still holds around 100,000 carats of industrial diamonds which will be used in Germany. Something like 350 million dollars in gold bullion is being allotted to European countries on a percentage basis right now.

But Gabell, who brought a Ger-

man wife and a family of three back to Pittsburgh with him, isn't concerned with it all now.

"It was only money," he explained, "and we thought about it in truckloads."

Aussies Confident  
Of Net Prospects

SALT LAKE CITY, (INS)—A Mormon missionary and amateur tennis player brings word from Australia that Aussie court stars are confident of their best showing in years in international play this season.

Brightened Davis Cup hopes were reported by Omer Morris, former University of Utah net star, who returned from more than two years as missionary for his church in Australia.

He said talks with John Bromwich and Adrian Quist revealed their confidence. Bromwich will captain the Australian Davis Cup team. Others in the team will

probably be Frank Sedgeman and Geoff Brown, Morris said.

Morris said Sedgeman, who was not ready for Davis Cup competition last year, recently defeated Bromwich in the Australian national championships and will be contender for honors in the international competition.

The Aussie team is due to make

the sport pilgrimage by water this year. Bromwich, who refuses to fly, was not on the Cup team at Forest Hills, N. Y., last year because the Australian Lawn Tennis Association wanted its members to travel by air.

Glass windows were used at Pompeii in Roman times.

**Minister Lists Ten Rules For Happy Wedlock**

ST. LOUIS—(INS)—The Rev. Elmer H. Hoefler, pastor of St. Peter's Evangelical and Reformed Church, offers the following "Ten Commandments for a Happy Marriage":

1. Thou shalt trust each other. One must trust, if willing to give one's self for life to another. One must trust, if willing to say: "With all my worldly goods I thee endow."

2. Thou shalt not credit evidence that is only circumstantial.

NEW CASTLE, PA., NEWS, THURSDAY, JULY 14, 1949.

Gossip starts with circumstantial evidence. That kind of evidence is poison to love and mutual esteem.

3. Thou shalt not sulk. Sulking is a mark of infantilism which many adults continue to indulge in to their peril. No grudge should be permitted to last overnight.

**Always Be Generous**

4. Be generous always. The person constantly afraid of getting the short end of the stick, usually does.

5. Thou shalt look upon sacrifice as a privilege and not as a burden. Like happiness, marriage blessings come as by-products of sacrificial devotion.

6. Thou shalt remember that the marriage carriage must be pulled by a team. Marriage is not a "one horse show."

7. Thou shalt not conduct post-mortem over failures and disagreeable experiences. Only if mistakes can be avoided in the future shall they be recalled.

8. Thou shalt not compare thy husband or wife with another's. You can't have a blonde and a brunette, a baldheaded and a curly-top in one person. Unpleasant comparisons corrode affection.

10. Thou shalt build thy marriage with God as a third partner. No two persons are ever quite good enough to obey all commandments for successful marriage.

Cows may or may not care for radio music but milkers on New Zealand farms most certainly do. Auckland reports. A farming journal survey showed that there are more dairy farms with radios in the cow sheds than without them.

**Says Archbishop Beran Is Facing Imminent Arrest**

VIENNA, July 14.—(INS)—A former Czechoslovakian diplomat now in hiding "somewhere in Austria" said last night that Prague Archbishop Joseph Beran faces imminent arrest and imprisonment.

Ferdinand Kokstein, who quit his post as acting minister to Austria in May, does not believe the Communist government of Czechoslovakia will execute the bishop, who is a virtual prisoner in his Prague palace.

The former official told International News Service that the Prague government has indicated it will use "exactly the same tactics" against Archbishop Beran that the Hungarians employ in arresting and sentencing of Josef Cardinal Mindszenty for alleged treason.

However, he declared that he does not think the Czechs will publicly try the Archbishop for fear of repercussions among the nine million Catholics in the nation.

BEAVER FALLS, July 14.—Beaver Falls City council opened bids for its proposed new water works plant during its regular meeting on Tuesday evening. The complicated figures will require much study and the awarding of several contracts. The bids were turned over to the Michael Baker Engineers for study with a report to be made at the August meeting.

# Would Destroy Unused Bases In Alaska Area

WASHINGTON, July 14.—(INS)—Fergus Hoffman, specialist on Alaskan affairs for the Seattle Post-Intelligencer, proposed Wednesday that unused and unfortified air bases in Alaska be destroyed as a security measure.

Hoffman, testifying before the senate appropriations committee, said that an enemy would have no trouble capturing unused Alaskan bases and using them as a springboard for striking at the "industrial heart" of the United States.

He said that Alaska's situation is far more vulnerable today than at the time of Pearl Harbor when there were no such air bases.

Hoffman declared earlier that the United States must strengthen Alaska with permanent bases and men or "willfully risk invasion."

He made the statement on unused air bases in reply to a question by E. L. Bartlett, Alaskan delegate in the house.

Sen. Cain (R) Wash., told the committee that Hoffman is recognized throughout the Pacific northwest as an outstanding authority on Alaska.

Hoffman said that while Russia is being very secret about what it is doing on the Siberian shore opposite Alaska, it is known there is "constant traffic" and it is generally believed the activity is of a military nature.

He said he "suspects" that the Soviet Union has an air base "right on the Bering sea."

Hoffman said that the people of Alaska are "frightened and worried" over the defense situation.

He added: "They went through it once. The knowledge that they may have to go through it again under even greater handicap is hard to take."

## Songs Sung In The Temple ISRAELITES SING PRAISES TO GOD IN THE SYNAGOGUE

Scripture Psalms 24: 84; 95:1-7.

Jewish Synagogue.

"O come, let us worship and bow down; let us kneel before the Lord our Maker."—Psalm 95:6.

By NEWMAN CAMPBELL

Even in the short space of time that the Bible notes on this Sunday school lesson were written, the Palestine picture has changed. Now the Republic of Israel is founded with the old and holy city of Jerusalem as its capital.

Israel has been accepted as a member of the United Nations, and the Jewish people of the earth have at last a homeland of their own. Their songs in the synagogues and temple must be ringing with thanksgiving to God for that blessing.

The 24th Psalm—a psalm of David—is "a psalm welcoming the King of Glory to Jerusalem." The 22nd, 23rd and 24th Psalms have an interesting relation one to another. In the 22nd, Christ is the Saviour, the psalm being a plea for help in time of trouble: "Be not Thou far from me, O Lord: O my strength, haste Thee to help me." In the 23rd Psalm He is the good shepherd that "maketh me to lie down in green pastures." In the 24th—today's lesson—He is the Lord, the sovereign.

"The earth is the Lord's and the fullness thereof; the world and all that dwell therein."

In the temple worship certain psalms were sung every day of the week. Psalm 24 is Sunday's psalm, and it celebrated the inauguration by David of the newly captured fortress of Jerusalem. Read II Samuel 6, where it is told how the Ark, after being given up by the Philistines, was at last brought to the city of David.

The musical part of this celebration was carefully arranged, with musical instruments and two choirs of voices answering each other. The word "Selah" makes a pause between the parts. It is thought that parts of this 24th Psalm were sung on the occasion mentioned.

"Who shall ascend into the hill of the Lord? or who shall stand in His holy place? He that hath clean hands, and a pure heart; who hath not lifted up his soul unto vanity, nor sworn deceitfully. He shall receive the blessing from the Lord, and righteousness from the God of his salvation."

Psalm 84 is headed, To the chief Musician upon Gittith, A psalm for the sons of Korah. It begins: "How amiable are Thy tabernacles, O Lord of Hosts!" An amiable here is used in a different sense from which we use it today. It means something worthy to be loved.

"My soul longeth, yea, even fainteth, for the courts of the Lord; my heart and my flesh crieth out for the living God. 'Yea, the sparrow hath found an house, and the swallow a nest for herself, where she may lay her young, even Thine altars, O Lord of Hosts, my King, and my God."

"Blessed are they that dwell in Thy house: they will still be praising Thee, Selah." In Psalm 84, too, is the oft-quoted statement, "For a day in Thy Courts is better than a thousand. I had rather be a door-keeper in the house of my God, than to dwell in the tent of wickedness."

In the sixth verse of this psalm, we read, "Who passing through the valley of Baca make it a well; the rain also filleth the pools." The word "Baca" denotes some kind of balsam tree and the "tears" are gum which the tree exudes. The Vale of Baca was a waterless, barren valley through which pilgrims passed on their way to Jerusalem.

The 95th Psalm is a song of praise and thanksgiving: "O come, let us sing unto the Lord: let us make a joyful noise to the rock of our salvation. 'Let us come before His presence with thanksgiving, and make a joyful noise unto him Him with psalms."

"For the Lord is a great God, and a great King above all gods. 'For He is our God; and we are the people of His pasture, and the sheep of His hand."

## New Lions Club President Takes Office At Volant

Twenty members of the Volant Lions club met with their new president, Ellis Hillard, serving in that official capacity for the first time Tuesday evening at the Volant Methodist church.

All re-elected and newly elected officers also assumed their duties at this time. The retiring president, Rev. Harry Silvis, and two other members, Paul Shaw and Alvin Silvis, were absent. They attended the installation of new officers in the Grove City club and had dinner with that group at one of the town's tearooms.

Following the dinner, Moreland Thompson, New Wilmington, showed a series of films. They were pictures of the apple marketing in this section of the country, of Canadian fishing opportunities and many of our own state.

President Hillard called a meeting of the directors for Friday evening at the home of Lion Elmer Brown on the East Brook-Harlanburg road.

## Sunday Will Be Governor's Day At Guard Camp

WV GAZ. Pa., July 14. (INS)—Approximately 7,000 Pennsylvania and Virginia National Guardsmen will mark Governor's Day Sunday with a "spit an' polish" review on the Indian Gap military reservation.

More than 20,000 spectators are expected to line Muir Field for the parade which will mark the successful completion of the first non-divisional encampment of the PNG. The 28th Infantry Division opens a two weeks' maneuver July 30.

Units will include the 10th Corps Artillery, the 11th Regimental combat team from Philadelphia and the 176th Regimental combat team from Virginia with the attached 560th Field Artillery Battalion. A 19-gun salute will herald Duff's arrival on the parade ground.

**To Review Troops**  
Brig. Gen. W. S. Valley, of Harrisburg, 10th Corps commander, will lead the troops by the reviewing stand and then will fall out and take the salute with other military commanders and guests.

Expected to attend the ceremony are U.S. Sens. Harry F. Byrd and Willis Robertson, of Virginia, U.S. Sen. Edward Martin, of Washington, Pa., former 28th Division commander; Maj. Gen. Daniel B. Strickler, of Lancaster, 28th commander; Brig. Gen. Brenton G. Wallace, of Bryn Mawr, 28th Artillery commander; Brig. Gen. T. Linus Hoban, of Scranton, assistant 28th commander; and Maj. Gen. Charles C. Curtis, of Allentown, commander of the 51st Anti Aircraft Artillery Brigade.

The 19-gun salute to the governor, commander-in-chief of the PNG, will be fired by the 190th Field Artillery group from Wilkes-Barre. Capt. F. A. Honadel, of Waynesboro, of the 176th Armored Field Artillery Battalion's Battery C, will command number one gun.

Bands from Pittsburgh, Philadelphia and the Virginia National Guard will play for the ceremony. A flight of planes from Pennsylvania's Air National Guard, including F-47 Thunderbolts from Reading and B-26 invaders from Philadelphia, will flash over the reviewing stand at the conclusion of the march past.

## Seek To Verify Russian Report Troops Withdrawn

LAKE SUCCESS, N. Y., July 14. (INS)—Russia was presented today with a note from the United Nations requesting access to northern Korea to verify Moscow's claim that all Soviet troops have been withdrawn.

The acting secretary-general at Lake Success dispatched the formal request to Moscow on behalf of the seven-nation U. N. commission for Korea, whose validity the Soviet Union has refused to recognize.

The same group, posted in the U. N.-sanctioned republic of Seoul, recently verified the withdrawal of United States troops from the southern part of the land.

Although U. N. officials fully expect another Soviet refusal or failure to reply to the note, it is pointed out that Russian claims to full troop withdrawals in Korea must remain open to question and doubt until the proper verification has been recorded with the general assembly.

Gustavus Adolphus, king of the Swedes, was killed in battle in 1632, partly, it was said, because his nearsightedness prevented him from seeing an enemy patrol in time.

How do you like the fresh fruits and vegetable department in your A&P store? Are the vegetables fresh and crisp — as they should be?

Are the fruits firm and ripe — as they should be?

Are the displays neat and orderly — as they should be?

Are the clerks helpful and courteous — as they should be?

We maintain buying offices wherever and whenever fresh fruits and vegetables of top quality are available. We rush this produce in refrigerated trains and trucks to our warehouses and stores. We price it to sell quickly and we inspect it constantly all along the line for any sign of deterioration.

In other words, all our efforts are aimed at offering you only the finest and freshest fruits and vegetables.

If we ever fail to do this, we will consider it a favor if you will tell us about it.

## Small Part Of Strip Mining Area Restored

HARRISBURG, July 14.—(INS)—The State Mines Department today reported only about 11 percent of the 17,000 acres of land barred by soft coal stripping operations in the past four years have been restored.

Compared to bituminous stripping operations, anthracite stripping lagged considerably. A "very small area has been restored," according to mine officials. Law governing restoration of anthracite operations became operative January, 1948.

Bituminous strippers are required to post \$300 for each acre stripped with a minimum bond of \$3,000 under an act of the General Assembly in 1948. Bonds under the original act of 1945 were limited to \$200 with a minimum of \$2,000.

Land restoration laws governing anthracite strippers were not passed until 1947 when bonds were required. In 1949 the legislature boosted amounts to coincide with bituminous requirements.

**Only Two Prosecuted**  
Since the soft coal law was put into effect 76 of the state's 968 bituminous coal stripping operators have been released from bonds upon successful completion of restoration projects. Only two have been prosecuted for non-compliance of the law. One was fined while the other later complied with regulations.

Although the restored acreage of surface does not appear to be favorable compared to the total of acreage stripped one mines department official indicated it actually was "good progress."

During 1948, when soft coal mining hit an all-time high, production of 33,000,000 tons on 5,000 acres was affected, the department said. More than 114,000,000 tons were taken from the ground since the law has been in effect. Enforcement of land restoration after stripping rests in the hands of the mines department in cooperation with the State Department of Forests and Waters. Mines sees to back-filling of soil, Forests and Waters over-sees reforestation. Three years are permitted to com-

plete restoration which is a prerequisite to regaining bonds.

Anthracite back-fill and restoration of plundered land will show more acreage restored in the future, according to Mines Department officials.

Hard coal strippers have one year to back-fill and since the law became operative in 1948 a certain amount of time must lapse before results actually can be seen, it was explained.

### Coal Company In Bankruptcy

SCRANTON, Pa., July 14.—(INS)—The Jermyn Green Coal Company, operating in Luzerne county, today sought relief from financial troubles with a voluntary petition in bankruptcy filed with the federal court at Scranton.

The firm recently failed to distribute vacation pay and wages for the first half of June to more than 1,400 workers. Miners were directed by United Mine Workers of America leaders not to work pending settlement of the dispute.

The company listed assets of \$586,263.55 and liabilities of \$509,009.91.

Included in the liabilities are wages totaling \$154,434.66 and unsecured claims classed as accounts payable amounting to \$307,069.69.

The company indicated it had no immediate plans for resumption of production.

Cotopaxi is the world's loftiest active volcano. It is in Ecuador, and has an altitude of 19,613 feet. The most terrible eruption occurred in 1768, when ashes were carried 130 miles. The last occurred in 1903.

## Six Manhattan Bus Lines Are Tied Up By Strike

NEW YORK, July 14.—(INS)—Six Manhattan bus lines were tied up this morning by a sudden "wild-cat" strike that threatened to spread rapidly.

Some 350 drivers and 100 maintenance men of the New York City Omnibus Corporation refused to work in a dispute over the reported firing of four mechanics. The men tied up the company's main garage at 100th street and Lexington avenue.

Lines affected were the Ninth avenue, Madison avenue, 116th, 96th, 86th and 79th streets.

Union and management officials were hastily summoned to a conference.

Edmund C. Collins, vice-president of the company, said that the management has asked local 100 of the Transport Workers Union-CIO to turn the dispute over to impartial chairman Theodore W. Kheel, as provided for in existing grievance machinery.

Collins said that the union has not yet replied to the request.

February is usually the warmest month in Rio de Janeiro.

## Calls On Hawaii To Settle Strike

WASHINGTON, July 14.—(INS)—Chairman Thomas (D) Utah, of the Senate Labor Committee, called on Hawaiian territorial authorities to settle the month-long shipping strike by using existing powers.

After a closed committee session on a bill to force settlement of the strike, Thomas told newsmen: "If the life blood of Hawaii is being drained because of the strike on the docks, the docks can justifiably be considered as a public utility. That is just one approach to the problem."

Thomas said he did not think the territorial legislature needed to pass a "Little Taft-Hartley Law" in order to meet the situation.

## Schools To Get Four Mills Of City Wage Tax

Action Taken At Board Meeting To Provide For Sharing City Levy

### NEW TEACHERS ARE ELECTED

New Castle school board levied a four mill wage tax Wednesday night to be effective January 1, 1950 to June 30, 1950.

For the school year commencing the first Monday of July, 1950, it is expected the school board will drop from four to three mills wage tax.

The levy followed a meeting with city council some time ago in which it was agreed that council would drop its ten mill levy to six mills for the January-July period in 1950 to permit the school board to levy four mills.

The school board levy will not affect the ten mill total wage tax now in effect in New Castle, save for workers who reside outside the city. Under an amendment of 1949, a school board cannot levy a wage tax upon a resident of another community, upon the theory that he does not reap any benefit from the school system levying the tax.

### Savings For Some

This will mean a savings of four mills wage tax for residents of other communities who work in New Castle. This of course depends upon the solution of the question as to whether New Castle can collect a wage tax from a resident of a district which levies a wage tax for school purposes. If it is held that a non-resident must be given credit for the wage tax levied for schools in four townships of the county, the worker will still be paying ten mills, but to his own district.

Mrs. Elizabeth Mark Fife, of RD 7, New Castle, was elected to fill the vacancy in Latin teaching in Benjamin Franklin junior high school Wednesday night at the basis salary of \$2400. She was given a professional or permanent contract.

Other professional contracts were to Mrs. Janet Young Knapp of 422 Court street to teach health education at \$2400 and Wayne W. Walter of RD 1, New Castle, to teach health education at \$2400.

### Temporary Contracts

Temporary professional contracts were tendered Marian Dean, of RD 1, Polk, Pa., to teach art at \$2000. Hazel Aileen Hay, 600 Ridge avenue, New Kensington to teach music at \$2000 and Grace Marie Twinn of 3022 6th avenue, Beaver Falls, unassigned at \$2000. The following resignations were accepted: Mary Louise Cleland, senior high, reason, marriage. Shirley Jean Parks, North street, rea-

son, marriage. Mary Patricia Preston, Franklin Junior, reason, to accept a position elsewhere. William R. Schmidt, Mahoning, reason, to accept a position elsewhere. Anna Mae Haug, clerk at Mahoning, reason, marriage.

Two teachers who had been elected, declined the election. They are Marjorie Frantz and Eleanor Danoff Bukowski.

### To Attend Conference

Dr. Frank L. Burton, superintendent of schools was authorized to attend the 1949 conference of principals and superintendents which will be held at Pennsylvania State College, July 26, 27 and 28.

S. Glenn McCracken was authorized to attend the National Education Film Library Association convention in Chicago the last week in July. Mr. McCracken will act as one of the chairmen of the convention and will show a new text-film for audio-visual libraries which he has produced.

Sister Mary Lawrence, director of the New Castle Hospital School of Nursing was granted the use of the Benjamin Franklin junior high school auditorium for commencement exercises, Tuesday evening, August 30.

Dr. Joseph A. Ginsberg was re-elected health director of the New Castle school system for 1949-50 but will be able to give the position only half time. Dr. Leonard A. Stutz was named school dentist upon the same condition.

## Memorial To Dare-Devil Flier Is Dedicated

WASHINGTON, Pa., July 14.—(INS)—DeLloyd (Dutch) Thompson, pioneer dare-devil aviator, was honored posthumously when some 5,000 persons gathered for dedication of the DeLloyd memorial airfield in Washington yesterday.

Noted airmen attended the dedication of the former Washington pilot, and paid honor to the man who early left his mark in the sky. Col. Roscoe Turner, famed speed flier, recalled how Thompson had once permitted the young Turner to touch his airplane in Memphis, Tenn., thus inspiring Turner to devote his life to aviation.

Thompson first soloed in 1910, "bombed" Washington, D. C., with magnesium bombs back in April, 1910, in an attempt to impress President Wilson and congress with the potentialities of the airplane. He set early records for altitude and speed, and used to race Barney Oldfield, Oldfield driving his Stutz, and Thompson roaring through the air only 10 feet above him.

Thompson died in Washington last Jan. 29 at the age of 61.

### CHILD INJURED

William Selby, aged 2 years, of 802 W. Grant street was treated at the Jameson Memorial hospital at 12:30 p. m. Wednesday for a contusion of the forehead and mild concussion, received when he fell off a step ladder onto the concrete sidewalk.

Gunpowder mills existed in Germany as early as 1340.

## Teaching Instructors In Red Cross Home Nursing Course

Seen in the picture (left-right) Mrs. Myra T. Swisher, Mrs. Mary A. Cushman, Miss Helen Venditto, Miss Mary Waples, the director, and Mrs. Pearl E. Hannan. Also attending the class but not in the picture, are: Mrs. Anna H. Mancino and Miss Swanik. This is a Red Cross sponsored course.

## MAN IS BURNED BY EXPLOSION OF ACID

While filling the boiler of a "steam jenny," preparatory to cleaning some grease off equipment at the W. J. McCormick Truck Equipment company, 309 West Grant street, Wednesday afternoon at 4 o'clock, Elder McCormick, aged 58 years, of R. D. 5, suffered acid burns about the face, back, chest and right arm.

When the acid compound came in contact with the water in the boiler, a violent chemical reaction took place, causing it to splash up over the upper part of his body and around his face.

He was taken to the Jameson Memorial hospital, where he received treatment for first and second degree burns.

## CHILD FALLS FROM MOVING AUTOMOBILE

Little Darlene Barnes, aged 2 years, of 412 Vine street, Sharon, was treated at the Jameson Memorial hospital at 6:15 p. m. Wednesday for bruises and contusions of the right knee and left elbow.

The child fell from a moving auto driven by her father, Earl Barnes, while the car was being operated near the city.

## Germans Studying U.S. Farm Methods

HARRISBURG—(INS)—T. W. o German farm officials have left Pennsylvania with many new ideas for rehabilitating agriculture in the U. S. military zone in southwestern Germany.

The visitors, Heinrich Stooss, minister of agriculture in the state of Wuertemberg-Baden, and Dr. Franz Herren, his deputy, found particular interest in results of livestock and plant disease control and the state's extension services.

"Tuberculosis and Bang disease of cattle are serious problems with us and the Pennsylvania plan of control in these and other livestock and poultry diseases will help us greatly," Herren said.

"The main difficulty in Germany has been the gap between science and research and the application of knowledge resulting from such research," he declared in comparing German methods with the extension service of the agriculture department.

## Scots Frown On Levity By Philip

LONDON, (INS)—Some of the speeches of Philip Duke of Edinburgh, particularly one about a rain from Edinburgh being "six drinks late," are causing head-shaking among the loyal and rather rigid Scots.

They take their royalty with greater seriousness than is the case in England, and although the Duke takes his title from their ancient capital city many Scottish courtiers are very critical.

The Duke declines to read the speeches that normally would be written for him by a court official, with the result that all his after-dinner speeches have a friendly informal tone. He never touches on serious subjects.

### FOUNDRYMAN BURNED

Manuel Conner, aged 39 years of 709 DuShane street was treated at the Jameson Memorial hospital for burns of the right heel and left hand, received when he came in contact with hot metal at the plant of the New Castle Foundry Co. on Hobart street Wednesday afternoon at 4:35 o'clock.

## Quarterly Pay Is Distributed

Men Of 229th Field Artillery Received Over \$6,000 For Drills

## PAY FOR CAMP TO DOUBLE THIS

It was revealed today by Lt. Col. George F. Mitchell, of the 229th Field Artillery, that the 162 officers and men of the local units of the 229th, received pay checks totaling \$6,135.30 for the last quarter's drill attendance.

During the two week summer encampment at Indiantown Gap, from July 30 to August 13, the enlisted men who will attend as members of the 229th from New Castle, will receive double this amount, or more than \$12,000.

Men who would like to go to camp with the local units, who are between the ages of 17 and 35, will still have an opportunity to enlist Lt. Col. Mitchell states.

Inquiry can be made at Cunningham Armory near Cascade Park. Inquiries can be made on Wednesday or Thursday evening for young men interested.

## Currency Wearing Out Much Faster

PITTSBURGH, (INS)—If it makes inflation easier to bear, here's some news of the money troubles the Federal Reserve Bank in Pittsburgh is having.

In fact, the present low life expectancy of \$1 and \$5 bills has the Treasury Department in Washington on a replacement printing binge.

Every day the Federal Reserve Bank destroys about 1½ million torn, disfigured or dirty bills of all denominations.

How they get that way is what puzzles bank officials.

A dollar bill is supposed to last nine months after it's printed by the Treasury Department. It doesn't in the Pittsburgh bank's district.

No Time For Aging Part of the disintegration is due to improper aging of the paper. Yet the race to keep enough money in circulation never permits sufficient time for that.

The main cause, though, is folks who fold and wad money, or who carry it crumpled in their pockets for a long time. Those grease smudges don't help either.

At the present time a \$10 bill makes a five in brevity of circulation. Prior to the war ones and fives were the common currencies.

Dr. Peter I. Tack of Michigan State college is trying to develop recipes utilizing carp, sucker and herring for "fish sausages." First attempts were unsuccessful because they had a rubberlike consistency.

## Bonded Debt Of School District Under Million

Board Secretary Reports  
New Castle School Bonds  
Down To \$945,000

### OTHER MATTERS BEFORE BOARD

For the first time since the 20's, the New Castle school district bonded indebtedness is below \$1,000,000.

A report of Secretary John B. Bechtel Wednesday night at the school board meeting show the bonded indebtedness as of July 1, to be \$945,000.

If no new indebtedness is incurred the district will be bond free in 1957.

#### Heavy In 30's

Back in the 1930's, when the depression was on, the bonded indebtedness of the district was heavy. At one time it was \$2,410,000. Despite the depression the school board paid off over a million dollars during the troublous times, although for four years no principal payments were made, the bonds being re-funded.

The board agreed to co-operate with the county commissioners in purchasing the Early property near the court house for the erection of a new detention home.

Under the law the county commissioners cannot purchase a property held for delinquent taxes but it can sell it to some one and in turn the "straw" buyer can turn it back to the commissioners.

In this case the Greater New Castle Association has agreed to purchase the property and then sell it back to the county commissioners for the same price. The commissioners expect to build a new detention home upon the property. To tear down the present house on the property will cost about \$1000.

#### Coaching At Franklin

The coaching situation at Benjamin Franklin Junior high got an airing Wednesday night.

Director Earle M. Brookover brought up the question as to whether or not the coaches had been secured for the coming season and was informed the situation was the same as it was a month ago.

Last season Head Coach George Massey was paid \$500 to take charge of all sports in the school. Miller L. Kerr was paid \$150 as assistant.

#### Divided Salary

Several months ago the board understood that Massey and Miller were willing to divide responsibility and also the salaries and accordingly each was to be given \$325 per year with Kerr heading the football coaching and Massey the basketball.

This arrangement did not suit the coaches and they refused to accept it. Nor would they continue coaching at the same price that had been paid. The board has felt that it should not pay more for coaching at the Franklin school than it does in George Washington, and has thus far refused to raise the ante.

One solution for the problem suggested Wednesday night was

## Washington Has Day Of Games

George Washington playground held its annual Sports Day on Wednesday afternoon, July 13. The entire afternoon was spent in playing checkers, jacks, basketball, ball and bean bag throwing, and running races.

Winners of each single game were given points, with prizes going to the three people with the highest number of points for the afternoon. Billie Jean Crowl took first place; Ronald Crookston, second; and Joyedelle Thompson, third.

Runners up were Billie Cioffi, Larry Whitman, Jack Crowl, Annette Cioffi and Shirley Gibson. Next Wednesday at 2 p. m. the children will present their Hobby Show.

Sir Harold Spencer Jones, astronomer royal at the Greenwich Observatory, says the days are getting longer. He told a Cleveland audience that "friction caused by tides" increase each day two milliseconds a century.

The box is one of the most primitive pieces of furniture because it was one of the first things made by man.

## Confusion As Japanese Repatriates Arrive From Russia

TOKYO, JAPAN—Utter confusion prevailed as the first group of repatriates returned from Soviet-controlled areas arrived here. Many of the repatriates demanded time to go to Tokyo's Communist headquarters to register before going to their homes in cities north of Tokyo. A war of flags took place as Communists waved red banners, others the Rising Sun flag of Japan and some banners with names to assist the repatriates in locating their families and friends.

# Army Convoy Rumbles Across Zone Of Soviet

BERLIN, July 14.—(INS)—Sixty U. S. army trucks rumbled across the Soviet zone towards Berlin today after being speedily approved by Russian guards at the Helmsstedt check point.

The unarmed American convoy, bearing food for the U. S. Berlin garrison, had been dispatched to test the extent of the Soviet restrictions on motor vehicle traffic. Shortly before the Russian soldiers let the 60 trucks through at 7:45 a. m. (1:45 a. m. EDT), a slowdown of German motor traffic from west Germany to Berlin was suddenly revoked.

Officials were not certain whether the appearance of the large American convoy had anything to do with the Russian reversal.

**Had Reduced Traffic**  
But up until late last night, the Soviets had reduced German traffic to a four-trucks-per-hour trickle through Helmsstedt, which is astride the British-Soviet zonal border. Unexpectedly, when the U. S. convoy arrived, the Russians stepped up the rate of passage to 16 vehicles per hour, which is about normal.

A two-mile line of German trucks had piled up at Helmsstedt because of rigid inspection regulations and the closing down of all alternate border-crossing points. Priority was given last night to vehicles carrying fish for Berlin. The sudden relaxation of restrictions touched off scuffling among some drivers who argued over who had the right to pass through Helmsstedt first.

## CROC DISPUTES ROAD

A large crocodile, lying on a flooded road near Sibasa, South Africa, gave John Anderson, manager of several native trading stations quite a scare. His car collided with the croc, which became wedged between the wheels. In its desperate struggle to escape, it almost overturned the car. Anderson drove it free, however, and sped on.

The Division of Labor Standards, in the U. S. Department of Labor, was established in 1934.

## BACKACHE, LEG PAINS MAY BE DANGER SIGN

**Of Tired Kidneys**  
When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or heavy passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Don's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Don's give heavy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Don's Pills.

### Diversion While Dressing.

Being dressed or undressed can be an awful nuisance to a young child. He wants to be moving around and he is forced to keep quiet. Tight sweaters or other articles of clothing are pulled over his face, press on his nose, and otherwise ruffle his dignity. Often when he tried to help he is met with impatience.

Eventually, dressing and undressing should become a routine activity. But while a youngster is in the stage of having to be dressed by parents, there is no reason why the process shouldn't also be one during which he can have a little enjoyment. A song to help him co-operate will sometimes work. Improvised dressing and tune such as "Johnny's pulling his arm out, arm out, arm out," or "Here come the stockings one-two-three, one for you and one for me," make him forget the nuisance that dressing is. Nor should a toy be ruled out. If, as he pushes his head through the pullover, he knows there is to be a surprise—one of his favorite toys, perhaps—waiting, again he won't mind the inconvenience of dressing so much.

One doesn't want to make a long-drawn-out process of dressing but usually a little diversion of the sort mentioned will speed things up rather than prolong them.

## Heat Breaks Up London Tradition

LONDON, July 14.—A drought plagued Europe from Scandinavia to the Mediterranean. London stockbrokers departed from tradition by taking off their vests. France had temperatures up to 101. Electric power was cut by lack of water from hydro-electric plants. Water was short in Paris, but Frenchmen insisted all fountains operate Thursday—Bastille Day.

Belgians feared loss of hay and potato crops. Frankfurt, Germany, reported an unprecedented heat wave. Copenhagen registered 81—hot for that Danish city—and ran 80s in England, and lawn sprinkling was curtailed.

## Thomas Harrelson Granted Furlough

T/Sgt. Thomas H. Harrelson, son of Carmo Bothe, of Alexander street, McKees Rocks, Pa., has been granted a ten-day furlough, during which time he will visit his wife, Mildred, at 803 Frank avenue, New Castle.

Harrelson is stationed at the McGuire Air Force Base, Fort Dix, New Jersey. He enlisted in the Air Force in September 1948, and is now assigned to the 91st Supply Squadron as a Chemical Technician. Prior to his enlistment, he was employed at the United Engineering and Foundry, of New Castle.

### SEED CARROTS FOR WINTER BY JULY 15

Carrots seeded by mid-July and given proper care will mature for use this fall, or may be covered with straw and left in the garden for winter use. Those seeded earlier may be too old for best use during the fall and winter months. If the garden soil is dry, and covered with a heavy crust it presents a problem. These suggestions are given:

1. Work the soil well and make

a shallow furrow about one-half inch deep.

2. After the seeds are covered with soil, water the row to wet the soil to a depth of three inches.

3. Cover the row with a mulching material, such as fresh lawn clippings or fish compost to a depth of about three inches to prevent the soil from drying out or forming a crust. A board also may be placed over the watered row, but the mulching materials is best.

4. Remove the mulching materials when the carrots start coming through the ground.

The same methods may be used for starting other crops during July and August.

### LIGHTNING LOSSES COULD BE REDUCED

Lightning—nature's artillery—loses some of its terrors when more fully understood. We can protect buildings by keeping these hordes of electrical charges from swarming over them. We can do this by

building plenty of roads over which these charges can travel, and these roads must be so made that the charges will use them in preference to walls, roof tops and chimneys of buildings.

Well-grounded metal roofs with conductors at the corners to the eaves will afford some protection, but these systems do not qualify for reduction in insurance premiums. A "master label" job of rods does qualify with some insurance firms. Information on rod installation and grounding metal roofs may be secured from the Agricultural Extension Office, 206 Post Office building, New Castle.

Lightning, one of the greatest causes of farm fires, each year destroys approximately \$20,000,000 worth of farm property throughout the country, takes the lives of 500 people and injures 1,300 others. Farm and rural districts suffer 90 per cent of the damage done every year by lightning.

### FOUR-WAY SPECS OFFERED

Argentine scientists have invented a new type of eyeglasses which can be adjusted to give the wearer a front, back and side view, Buenos Aires reports. They contain four lenses in the form of a prism and should aid motorists and pedestrians.

### NIGHT SHOPPING URGED

Merchants in Valparaiso, Chile, are protesting a city order fixing retail store hours from 9 a. m. to 1 p. m. and from 3 to 7 p. m. They want to stay open later, claiming such early closing makes it impossible for workers to shop in the evening.

# Unprecedented Action By Pope

## Excommunication Of Catholic Communists Is Announced In Historic Decree

By MICHAEL CHINIGO

VATICAN CITY, July 14.—Pope Pius' sweeping excommunication of Catholic Communists pointed out today a bitter, heightening no-compromise struggle between the Vatican and the Kremlin.

Throughout Catholic Europe, the pontiff's unprecedented action reinforced the intensity of the battle between the Holy See and the Communist parties behind and outside the iron curtain.

Communists reacted sharply to the order, which came at the height of a drive to gain the support of Catholic elements in France. The French Communist organ L'Humanite termed the excommunication decree "purest totalitarianism."

"It will fail to break the ever closer union between believers and non-believers, particularly in our country."

The excommunication, announced in a decree issued by the sacred congregation of the Holy office and approved by the Holy Father, was published today in the official Vatican bulletin "ACTA Apostolicae Sedis."

The historic move, without equal in church history, deprives Catholics who teach, advocate, or support Communism of church benefits and prevents them from receiving the sacraments and the rites of the church.

Prior to the Pope's drastic step, the Vatican had already invoked excommunication in three cases involving the church's battle with Communism in eastern Europe.

## HARBOR

The Women Missionary society of the Harbor U. P. church will hold an all day quilting in the church Thursday, July 21.

The Harbor Garden club gathered at the home of Mrs. H. F. Barber for the July meeting. Topic for the evening was "Pests in the Garden and Ways To Control Them."

Plans were made for the annual picnic date to be announced later. Next meeting will be at the home of Mrs. J. Emerson Davis of Scotland lane, August 2, 1949.

Mr. and Mrs. John Nosidlak of Pittsburgh and Mr. and Mrs. Joe Slaydon and son of Readville, N. C. were Friday visitors of Mr. and Mrs. H. W. Byler.

Mrs. Bernice Steele spent the week end at the home of her brother, Francis Kuhn, of Erie.

Ruth Cox has returned to Cleveland, O., after spending the week end with her parents, Mr. and Mrs. Howard I. Cox.

Mr. and Mrs. Henry J. Hauber and family of Harmerville, Pa., were Sunday visitors at the home of Mr. and Mrs. Charles O. Matthews and Mrs. Anna Houston.

Mrs. Hauber is the daughter of Mrs. Houston.

Mr. and Mrs. Clarence Burk and son of Altoona were Saturday dinner guests of Mr. and Mrs. Charles G. Matthews.

Mr. and Mrs. George Cummings and son spent the week end with Mr. Cummings' father, Howard Cummings, at Henry's Bend, on Allegheny river.

Joel Kratzer has returned to his home in New Castle after spending three weeks with his grandparents Mr. and Mrs. Walter Smith.

Mr. and Mrs. William L. Cox and Mr. and Mrs. Ed. Donley of New Castle were Sunday callers at the Howard Cox home.

Mr. and Mrs. O. D. Hunt and daughters were Sunday visitors at the home of E. B. Everett of Kinsman, O.

Mr. and Mrs. Floyd Currie motored to Erie on Sunday.

Mr. and Mrs. Charles Meeker of Ashtabula, O., were house guests of Mr. and Mrs. S. R. Smith on Sunday.

Mr. and Mrs. S. R. Smith entertained a group of young folks Saturday evening in honor of their son Joseph's 16th birthday.

The honor guest received many nice gifts. A fine lunch was served by Mrs. Smith, aided by her daughter, Marie.

### Register For Day Camp's Second Week

Registrations are now being taken for the second week of Girl Scout Day Camp which is held at the Cascade Park. All registrations are closed with the beginning of the camping period next Monday, July 18.

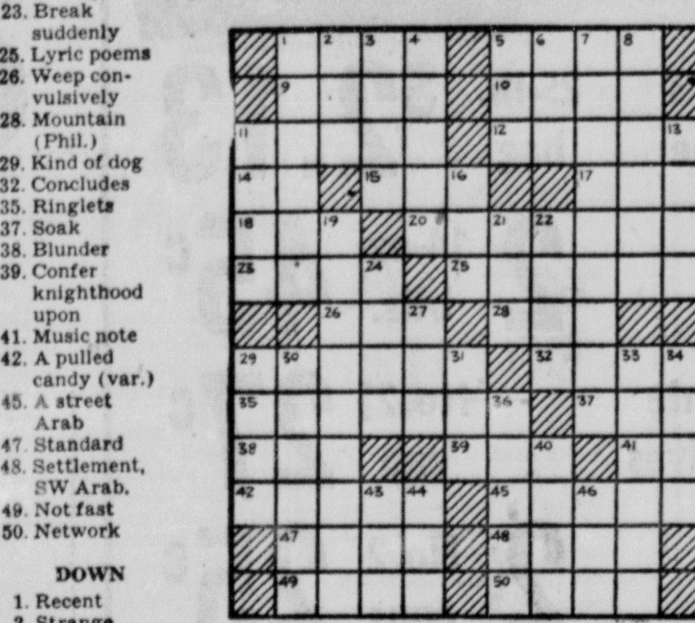

Thus far, the groups of campers have been divided into four units. Each group presented a skit, and the remaining units were to guess the name selected by the tableau given. "Elves" was the name chosen by the older brownies, while the younger brownies decided upon being "owlets". "Indians", in the form of older intermediates, are on the loose at the park, so anything can happen.

Younger intermediates call themselves the "dancing pirates". Activity is well under way this first week of camp, and units report a record attendance.

The Courant, published in Hartford, Conn., established in 1764 is our oldest newspaper.

## Elephants In Mad Search For Water

LONDON, July 14.—(INS)—Five thousand frantic elephants are reported ravaging vast areas of Africa's Kenya territory today in a mad search for water.

A severe drought which has dried up streams and waterholes in South Africa, the London Daily Mail reports, has touched off frenzied stampedes by the thirst-crazed animals.

In a dispatch from Mombasa, the newspaper said that the thundering herds have trampled sugar, maize and barley plantations and are invading village main streets in their quest for water.

Terrorized natives were reported adding to the nightmarish effect of the "elephant war" by beating tom-toms and blowing horns in an effort to drive off the trumpeting beasts.

### ITALIANS FIND NEW JOBS

Italians who fled to Tanganyika as evacuees from Italian colonies in East Africa and stayed there, are about to find employment. More than 160 skilled workers have been hired on the huge peanut cultivation project now under way there, Dar-es-Salaam reports. Others are working as miners.

By 1948 more than one million barrels of crude oil were being produced daily from oil fields in the Middle East.

# Major League Clubs Resume Action Today, Face Crucial Period

## Dodgers-Yanks Hold To Leads

Cardinals, Indians and Red Sox threaten, approaching half-way mark

By JOHN BARRINGTON  
(International News Service Sports Writer)  
NEW YORK, July 14.—The American and National leagues, their All-Star whimsies forgotten, plunge back into the thick of their respective pennant fights tonight. The next fortnight, heralding the dawn of the second half of the 154-game schedule, will be a crucial period in both leagues.

In the National, where only half a game separates first place Brooklyn and second place St. Louis, the challenging Cardinals begin a long eastern invasion at Philadelphia.

**Lead Fading**  
The Dodgers, who have seen their lead eaten up by the Red Sox's relentless advance, are at home to the fast-fading Cincinnati Reds.

The Cards have come out of nowhere—seventh place to be exact—in their amazing drive toward their first pennant since 1919. Eddie Dyer's club expects to reap more and more benefit from the Mexican League prodigals, Max Lanier, Fred Martin and Lou Klein.

Manager Burt Shotton of Brooklyn, on the other hand, seems to have solved his early season infield problem, but his pitching is a headache of late.

**Pirates At New York**  
In other National League games today, the defending champion Boston Braves—still only 4 1/2 games off the pace—have a chance to fatten up on the last place Chicago Cubs, while the climbing Pittsburgh Pirates play at New York.

A similar situation exists in the American League, where the league-leading Yankees start a ten-day road engagement in the west. The Yankees have a 1 1/2 game lead over Cleveland as they open tonight at St. Louis.

**May Change**  
However, Casey Stengel of the Yanks, Lou Boudreau of the world champion Indians and Joe McCarthy of the threatening Boston Red Sox agree that the current trip may change the whole complexion of the race.

Boudreau, whose Indians have been coming fast in the past month, predicted at the All-Star game that the tribe will repeat its 1948 successes if it continues hitting.

McCarthy, although his club still is fourth and 8 1/2 games back, vows the Red Sox are ready to tear the league apart. Cagney Connie Mack keeps his own counsel, but his third place Philadelphia Athletics can't be counted out, either.

**Athletics At Cleveland**  
The Indians and Athletics open a series in Cleveland tonight in which second place is at stake. Meanwhile, Boston opens at Detroit in a series that could boost the Red Sox as high as second—or drop them into fifth below the Tigers.

Washington appears at Chicago in a set of games of little consequence to anyone.

**Rifle Club To Meet Saturday**  
New Castle Rifle club will begin its 30 caliber qualifications firing on Saturday, July 16, at 4 p. m.

The meet will be held at the Lawrence County Sportsmen's farm, Pulaski road. Rifles and ammunition will be furnished for all members.

Thirteen lettermen and a dozen other hold-overs represent the nucleus of the 1949 Penn State football team.

## Sam Snead Thrills District Golfers

Gives Amazing Demonstration Of Golfing Skills And Ties Tam O'Shanter Record

Golfdom's greatest drawing card, Sammy Snead, showed all the reasons why he is that in an exhibition match at Tam O'Shanter on Wednesday afternoon.

The nation's second leading money winner on the tournament circuit easily stroked and wisecracked his way to a 65 on the well-conditioned course at West Middlesex before a crowd of more than 1500. Many of the spectators were from the New Castle and Lawrence county area.

Snead arrived from Pittsburgh, where he will enter the Dapper Dan tourney today, shortly after 4 o'clock. He immediately proceeded to win the favor of the crowd with an informal golf clinic and an amazing demonstration of distance hitting and control.

**Play Foursome**  
Following the clinic Slammin' Sammy teamed with Milt Dunsmore, Sharon Country club pro and former assistant at the New Castle club, in a best-ball foursome against Ted Blauer, unattached pro from the Shenandoah valley, and Frankie Bittenz, 1948 Tam O'Shanter champion.

Snead's team won the match 4 and 3. The PGA and Masters' champion had a card of 34-31-65 which included seven birdies and no bogies or eagles. The score tied the course record.

His famous putter and questionable putting ability were showed to good advantage on the 17th green when Snead stopped to tell a humorous story to the golf lovers crowding the green carpet and then calmly walked over and tapped in a 35-foot putt from the apron.

Penn State will play four games at home, five on foreign fields, during the 1949 football campaign.

**PLAY 14-INNING TIE**  
St. Mary's and Union Civics played to a 14-inning 7 to 7 tie last night at Progressive field. A mixup over the right to use of the field resulted in the police stopping the game for about ten minutes. After the slight delay, however, the game was permitted to go on.

**EDEN HILLERS GRAB VICTORY**  
The Eden-Hillers won a North County league game last night from New Bedford 6 to 5, with the game going eight innings. The winning hurler was Jimmy Book, who went all the way. Francis Tricolo led off the eighth with a double and scored on a single by Oliver Exposito.

## Dewey A. C. Tops Ryantown, 7-3

Adams Has One Hitter Until Seventh; Joepok Bats In Three Runs

Dewey A. C. defeated Ryantown 7 to 3 last night in the playoff of a postponed city league game.

Adams went all the way for Deweys and held Ryantown to four hits, one of them a triple by Smiley. R. Fee and Richards pitched for Ryantown with Fee being charged with the loss.

Joepok, Dewey A. C. centerfielder, had three hits, including a triple, and batted in three runs. Other heavy hitters for Deweys were Bechtol, who had two hits, including a double, and Kahrer, who had a triple.

Adams had a one hitter going into the last of the seventh when Ryantown got three hits along with an error to score two runs.

Bevan, Ryantown third baseman, was injured when he hit in the face by a line drive.

## Boxing Promoters May Eliminate Television, Possibly Broadcasting

By TOM R. BRISLIN  
(International News Service Sports Writer)  
PHILADELPHIA, July 14.—A combination of good action-filled matches and elimination of television and broadcasting was offered today as a formula for the successful revival of boxing in America.

The formula emerged as an aftermath of the sparkling Robinson-Gavilan welterweight title bout in Philadelphia's Municipal Stadium on Monday night.

It supported strongly the contention of much of the boxing industry that television, in particular, and broadcasting to a lesser extent, constitute twin cancers to the fight game generally.

**Television Hurts**  
But even the most ardent opponents of television and broadcasting admitted that the formula is only half effective with elimination of these factors.

Television or broadcasting of poor bouts, such as the Ezzard Charles-Joe Walcott heavyweight affair in Chicago recently, can work in reverse and harm boxing even more, they declare.

But stage action-packed bouts like the Robinson-Gavilan setto, they argue, and the fans will turn out in droves, with or without television—but especially without.

For, they contend, there's nothing wrong with boxing that more fights like the Robinson-Gavilan struggle won't cure.

Slender Robinson, the Harlem dandy who retained his crown by a decisive victory over the rumbadancing Cuban challenger, proved himself something of a prophet when he opposed television or broadcasting the battle.

**Prediction Borne Out**  
Robby contended the cash register would do a lot less jingling if the bout with Gavilan was televised or broadcast. His prediction was borne out, too.

With no broadcast or television, a crowd larger than anticipated paid some \$15,000 more than even the most optimistic expected to watch the punch-fest.

Officials of the Arena Corp. which staged the championship affair said rejection of bids for television and broadcast rights possibly meant \$75,000 more in the till than would have been collected otherwise.

The gross gate exceeded \$177,000. But Robinson and Gavilan both argued that this would have been much less if the show had been televised or broadcast.

**Robinson Made Bundle**  
The best television offer of \$35,000 would not have made up the difference by any means and, according to the champion's viewpoint, likely would have cut the crowd considerably.

Robinson, incidentally, profited financially to the tune of some \$51,000, 40 per cent of the gate. It was the biggest purse by some \$22,000 he ever received.

Gavilan drew 18 1/2 percent of the take and pocketed a check in the neighborhood of \$23,000.

**WAMPUM-BESSEMER TANGLE TONIGHT**  
Lawrence County league's No. 1 and No. 2 teams meet tonight. Wampum with a great record of 24 and 4 will travel to Bessemer, 26 and 8, for the conflict beginning at 8 o'clock.

First place is not at stake but a lot of prestige is and the Martin men have a fine opportunity to gain some valuable ground.

A Wampum victory would go a long way toward making last year's champs a repeat winner.

**WEDNESDAY RESULTS**  
Wampum 18, St. Lucy 7.  
Koppel 3, Hillsville 3.  
Lowellville 5, Ellwood VFW 1.  
Bessemer 7, New Galilee 3.

**GAMES TONIGHT**  
Youngstown at Johnstown.  
New Castle at Butler.  
Erie at Uniontown.  
Vandergrift at Oil City.

Vangelas sparked the attack by doubling home Bob Miceolotta and Lonnett who had singled. Rush walked and Frank Merla plated Vangelas. An infield out sent Rush across the platter.

**Nats Score In Third**  
New Castle only scores came in the 3rd when Bilo and Maier walked and rode home in Karakul's double. Lonnett clouted his second home of the game in the sixth. The blow coming with McCullough aboard.

Vandergrift scored its final three runs in the eighth on Tom Vangelas' homer over the right field wall with Lonnett aboard. Earlier Miceolotta who had forced McCullough at second had scored in Lonnett's double.

**Move To Butler**  
The Nats move to Butler tonight for a two-game stand, and will return to New Castle Saturday for a series with the Johnstown Johnnies. The Saturday game starts at 8 o'clock, the Sunday game at 2:30 o'clock.

**VFW DEFEATS WALMO**  
The VFW Post 315 baseball team defeated the Walmo Markets 15 to 5 last night in a Junior Legion league game. Harry Jolley, the winning hurler, allowed but five hits and fanned 19 men. The losing pitcher was Young.

Penn State, while not primarily a passing team, completed 48 per cent of the passes it attempted during the 1948 football campaign. Elwood Petchel was the reason.

## Universals Win Golf League Race

Sanitary Potters Are In First Place As Regular Season Ends

### PLAYOFF FOR TIE PLANNED

At the end of the regular season's play Wednesday evening at Sylvan Heights course, the strong Universal-Rundle team, although defeated by United Engineering 8-4, found themselves in first place in the City-County Golf league.

Morella's wound up in second place, just one point ahead of United Engineering, while the Castle club and Local 3125, Shengango Pottery, are tied for fourth place. A playoff for fourth place position will take place on next Wednesday evening, July 20, after which the first four teams will play for the title.

In last night's play, Local 3125 just escaped being eased out of the playoffs when they lost to the American Cleaners team 7½-4½, while Castle club was halving with New Castle Moose 6-6. The Eagles won from East Side Shamrocks 6½-5½ and Figuly's took the strong Morella's 7½-4½.

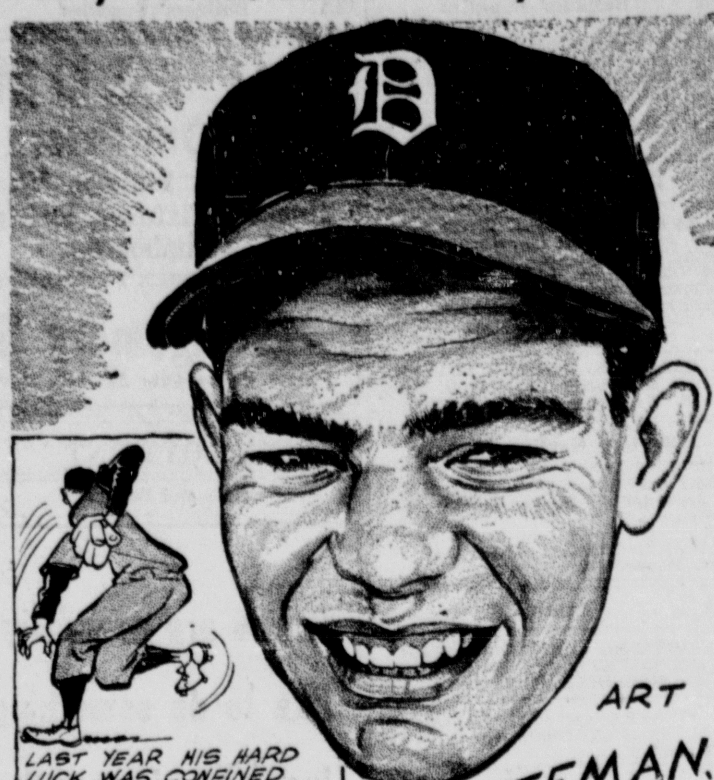

Johnson Bronze, who had been up near the top of the heap, drew their bye on the final night and finished in sixth place.

Ez Palmer, with a par round of 36, was medalist, with Carl McIntire in the runner-up spot with a 37. George Hahn and Pete Dimico had 38's, and George Sargent, Harry Tuscano and John Ferry had 39's.

The official final standing follows:

Universal-Rundle 74½, Morella's 67, United Engineering 66, Castle club and Local 3125 65½, Johnson Bronze 63½, New Castle Moose 56, Eagles 52½, American Cleaners 52, Figuly's 48½, East Side Shamrocks 47.

## Thirty Midgets Enter Race At Canfield, Ohio

CANFIELD, Ohio, July 14.—More than 30 of the finest Offenhauser Midget cars and their star pilots will be competing in the A. A. program of midget auto racing at the Canfield Speedway this Saturday night, July 16th. Included in this large field are the first fifteen leading A. A. drivers in the United States. Eddie Johnson, 29 year old Los Angeles, California, star will be back in the line up to protect his title to Canfield's quarter mile track record and to try to annex his first feature win this season at Canfield. Johnson is a great favorite with the local fans who are puzzled as to why he cannot annex a Canfield feature victory this season. Johnson hopes to come thru Saturday night.

## DeCarbos Defeat PRR Team 9 To 7

The DeCarbos trimmed the PRR team 9 to 7 in a city softball league game at Gaston Park field. Fl Augustine did the Bombers pitching and allowed the railroaders nine hits. DeProspero was the losing hurler, giving up 13 hits. Ralph Paolone and Cioppa hit homers. The DeCarbos are in second place with 17 and 8.

The Blackhawks edged the Pearsons last night 1 to 0 with Rocky Palano the winning hurler and Morgan the loser. Palano allowed three hits.

The East Side Shamrocks trounced the National Guards last night 8 to 4 with Dodo Jenkins hitting a homer, Bob Miller a triple and Paul Hawkins two singles. "Fran" Suzow was the winning hurler and allowed but three hits, fanning seven. The "Rocks" are in fourth place in the city softball league.

The league leading Moose club team whipped the Shadysides last night 12 to 7, shelling Cimini off the mound in the fourth and knocking DeMarco hard. Roger Maggie was the winning hurler and Cimini the loser. Nuzzo led the Moose at bat with a homer and drove in three other runs. Mazzeri had a homer for the losers.

The 72-hole tournament will continue through Sunday.

## Sportsmen To Have Meeting Tuesday

President Herman F. Steinbrink of the Lawrence County Sportsmen's Association has called a meeting for Tuesday evening at 8 o'clock at the clubhouse at the Sportsmen's Association grounds at The Harbor.

Several important matters will come up for discussion at this meeting, Mr. Steinbrink states.

## PHILLIES WIN EXHIBITION GAME

ALLENTOWN, Pa., July 14.—(INS)—The Philadelphia Phillies hung a 10-3 defeat on the Allentown Cardinals in an exhibition game last night before 4,500 at Broadon field in Allentown.

Curt Simmons and Charley Bicknell limited the Cardinal farm team of four hits. Hurler Schoolboy Rowe played part-time at first base for the Bluejays and slammed a home run against the Inter-State leaguers in the ninth.

## PITT GRIDDER INJURES LEG

HARRISBURG, July 14.—(INS)—William N. Gasporvic, 19, of Steelton, a tackle on the University of Pittsburgh's grid squad, was admitted Wednesday to the Harrisburg hospital with a leg injury sustained at the Bethlehem Steel Company plant.

Gasporvic, an all-State tackle in 1947, was injured when a heavy steel hammer shattered near his leg.

## LUKE EASTER ABLE TO QUIT HOSPITAL

CLEVELAND, July 14.—(INS)—Luke Easter, slugging first baseman for the San Diego Padres of the Pacific Coast league, said today he did not know when he would be able to rejoin the team. Easter was released from Cleveland Clinic yesterday after an operation for a chipped kneecap.

## SOFTBALL UMPIRES TO MEET TONIGHT

There will be a meeting of the softball umpires tonight at Union Calabria hall at 8:30 o'clock for the purpose of selecting an all-star lineup to play the Moose club team next Monday night at Dean park.

It's hard to imagine a .195 hitter as the sparkling of a pennant-contending major league ball club, but Second Baseman Eddie Miller of the Phillies is just that today.

## Court House County Refuses Tax Exemption

Commissioners Refuse To  
Exempt New Castle Air-  
port From Payment  
Of County Taxes

### OTHER EVENTS IN COURT HOUSE

Holding that the city of New Castle receives rentals from the New Castle airport, the county commissioners on Wednesday refused to exempt the city from the payment of county taxes.

The matter came before the board in a letter from the city solicitor. In it he asked that certain properties owned by the city be exempt from county taxes because the properties were used or usable by the city.

The commissioners exempted all of the properties except the airport.

#### ROAD AID

At the request of the state highway department, the county commissioners have agreed to pay \$6,000 to aid in the work of widening the Portersville-Ellwood City highway through Ellwood.

#### MOTION REFUSED

In an opinion handed down on Wednesday Judge W. Walter Bramham refused the motion of George W. and Isabelle Waters for judgment N. O. V. (notwithstanding the verdict).

The motion was made after a verdict was returned in the case of Erma I. Seamans versus the two defendants. This was a case where Waters claimed he owned a strip of land three feet wide and 120 feet long which Mrs. Seamans claimed was hers. The case was tried twice and each time the jury found in favor of Mrs. Seamans. Following the second verdict the motion for judgment notwithstanding the verdict was made.

#### DIVORCES GRANTED

The following divorces have been granted by the two judges of the county:

By Judge Graham: Helen Tyler from Josh Tyler, Joseph A. Parsons from Frances Mae Parsons, Hannah Brophy from Edward Patrick Brophy, Pauline H. Donofrio from Samuel J. Donofrio, Joseph A. Lepore, Jr., from Henrietta Marie Lepore.

By Judge Lamoree: Sue DeRobbio from Louis DeRobbio, Dottie Marie Saul from John Saul, Ann M. Beeler from Charles A. Beeler, Susan Harper from Albert E. Harper, Robert L. Brisbin from Lois R. Brisbin.

#### VERDICT UPHELD

Judge John G. Lamoree has upheld the verdict awarded Thomas J. Falen and Ora Falen against the Monessen Amusement company in Ellwood City.

In an opinion and order handed down Judge Lamoree refused a motion for judgment notwithstanding the verdict and thus upheld the verdict of \$4000 to Ora Falen and \$1000 to her husband, Thomas J. Falen.

The case came about when Mrs. Falen claimed she was injured when she was leaving the theatre owned by the defendant company in Ellwood City.

#### MARRIAGE LICENSE APPLICATIONS

Frederick John Kutznar, 1214 Third street, McKees Rocks; Mildred Carner, 355 Island avenue, McKees Rocks.

Norman Cuscino, Jr., 1015 Huey street, New Castle; Josephine Mazzei, 309 East Lutton street, New Castle.

#### REALTY TRANSFERS

Frank G. Smith and wife to William C. Peterson and wife, Wayne twp., \$1.

Belle N. Johnson estate to Howard D. Cunningham, Slippery Rock twp., \$1.

George F. Zikell and wife to Richard C. Fellerina and wife, Ellport, \$250.

#### BURGLAR'S ERROR

NEW YORK, July 14.—(INS)—Raymond Mussman, 21, who set out last night to rob a delicatessen store by evading existing burglar alarms realized today he needs a post-graduate course.

His "perfect" plan to enter the store through a greasy ventilating duct back-fired when he got caught tight in a turn in the duct. It took 15 policemen to free him.

## BULL BATTLES FIRE ENGINES

NORTH ANDOVER, Mass., July 14.—William A. Mazarinko and his large, brown bull aren't speaking—not after what happened yesterday.

Fire broke out in the Mazarinko barn about dawn and Mazarinko called the fire department which rushed apparatus out to the farm—or almost to the farm.

The bull plainly didn't like red fire engines—he just planted himself in a narrow roadway and challenged the firemen to come on.

Doubling as picadors, the firemen drove the bull back into a field. The bull got loose and came back.

By that time the big, \$12,000 barn was beyond saving.

## Remove Patients From Hospital As Fire Threatens

EVANSVILLE, Ind., July 14.—(INS)—Gas and ether exploded in the anesthetic room of an Evansville hospital Wednesday, touching off a fire that forced the evacuation of 165 patients.

Firemen and volunteers worked at top speed to get 111 adult patients and 54 infants from the fire-threatened wing of the Deaconess hospital, and all were removed safely.

A hospital orderly and a fireman were overcome by smoke but neither was in a serious condition. Fire Chief Clarence Bassmier said the principal damage was caused to medical equipment. The loss was estimated at several thousand dollars.

## Day Nursery Must Get New Quarters

BOSTON, July 14.—(INS)—Everyone agreed at a Boston hearing that nature being what it is the happy shouts of little children can't be stifled.

But it also was agreed they can be kept at a distance from people trying to sleep.

John B. Travers, a liquor dealer, and 14 other persons argued successfully in opposing a permanent day nursery permit sought by Mrs. Gertrude Bell.

Travers and the others said they work nights, and the shouts of the day nursery youngsters keep them awake.

Mrs. Bell, who has operated the nursery for 12 years, was given one year to find a new location for her play school—out of sound, if possible, of day sleepers.

## Declaration Of Intent Rider Is Filed To Pact

WASHINGTON, July 14.—(INS)—Senate Republican Wherry of Neb., on Wednesday introduced a "declaration of intent" rider to the Atlantic pact which would specifically withhold any United States obligation to rearm Europe.

Unlike a "reservation", the "declaration of intent" would not have to be approved by other countries in the pact, but would simply stand as an explanation of U. S. intentions.

Wherry's rider would disclaim any U. S. responsibility for helping Europe rearm until there is an invasion by an invader, bringing into force the controversial "article five" which carries an obligation to join other nations in resisting aggression.

A further provision in the Wherry declaration of intent would require also that U. S. participation then would be subject to action by congress.

## Knickerbocker Had Filed Libel Suit

NEW YORK, July 14.—(INS)—H. R. Knickerbocker, WOR radio commentator killed Tuesday in the Royal Dutch Air Line crash near Bombay, had instituted a \$100,000 libel suit against the communist newspaper "The Daily Worker".

Named in the suit was John Gates, the editor and one of the Communist party leaders now on trial in New York federal court for conspiracy to teach and advocate the violent overthrow of the U. S. government.

The law firm of Greenbaum, Wolff & Ernst said today that the summons in the suit was served on Gates on July 11.

The action was brought as a result of an article in the paper last April which called the famous roving reporter a "nazi sympathizer".

The law firm, which emphasized that Knickerbocker was an "ardent anti-fascist", said it has not been determined whether the suit will be carried through in view of the newsmans' tragic death.

Knickerbocker's widow and four children survive.
